ISSUE
Information on ADFIAP’s work and advocacy on financial inclusion

BACKGROUND
ADFIAP’s four (4) key areas of work and advocacy, under its broad mission of “financing sustainable development”, are: micro, small and medium enterprise (MSME) finance (economic), green finance (environment) and financial inclusion (social) with good governance at its core or, in short, its EESG “pillars”. ADFIAP believes that its member-development finance institutions (DFIs) or, alternatively called development banks, are the “natural” institutions to pursue and promote national sustainable development efforts through the provision of long-term finance and technical assistance.

Under these advocacies, ADFIAP has the following programmes: the SME Finance Initiative, the Environmental Governance Standards project, the DFIs for Corporate Governance project and the ADFIAP Responsible Citizenship (ARC) Institute under which the Association’s Financial Inclusion Program is a part of.
