ISSUE

Update on global regulatory reform proposals

BACKGROUND

The 2008 financial and economic crisis has led to an unprecedented number of regulatory and legislative reform proposals from US, EU and global groups, which have formed the basis for legislative, regulatory and standard setting agendas. In order to promote a better understanding of the issues raised, AFME, ASIFMA and SIFMA have developed comparisons of a number of leading reform proposals and the legislative and regulatory measures that continue to emerge. This presentation is a high level overview of leading global legislation and regulatory reform proposals. Each slide represents a major topic area with a timeline of events and a matrix comparing the different legislation and proposals, broken down by high level principles covered. It is not exhaustive nor does it delve into the minutiae of each legislation and proposal.

GLOBAL REGULATORY REFORM PROPOSALS

SIDE-BY-SIDE COMPARISONS AND TIMELINES
As of 30 September 2012

Side-by-Side Comparison

Introduction

The 2008 financial and economic crisis has led to an unprecedented number of regulatory and legislative reform proposals from US, EU and global groups, which have formed the basis for legislative, regulatory and standard setting agendas. In order to promote a better understanding of the issues raised, we have developed comparisons of a number of leading reform proposals and the legislative and regulatory measures that continue to emerge.

This presentation is a high level overview of leading global legislation and regulatory reform proposals. Each slide represents a major topic area with a timeline of events and a matrix comparing the different legislation and proposals, broken down by high level principles covered. It is not exhaustive nor does it delve into the minutiae of each legislation and proposal.

Summary descriptions of a number of regulators, legislators and major other actors in global reform are provided on the following page. Next are side-by-side analyses of related Global, UK, EU and US legislation and/or proposals, along with timelines noting key milestone dates, followed by a glossary of terms, and bibliography.

We hope you find these useful, and we welcome your feedback.

Global

G-20 consists of the finance ministers and central bank governors of 19 countries: Argentina, Australia, Brazil, Canada, China, France, Germany, India, Indonesia, Italy, Japan, Mexico, Russia, Saudi Arabia, South Africa, South Korea, Turkey, United Kingdom, and the United States of America, as well as representatives from the European Union.

Mexico currently hold the G-20 presidency through 2012.

The G-20 Declaration on strengthening the financial system (London Summit April 2, 2009) outlined actions agreed upon by the G-20 to strengthen the financial system by putting in place a better and more credible system of surveillance and regulation to take into account of macro-prudential risks and prevent excess leveraging, including (for the first time) regulation and oversight of large hedge funds and credit rating agencies. They also agreed on actions to tackle non-cooperative jurisdictions and to create common principles for executive remuneration. The G-20 Leaders' Statement from the Pittsburgh summit (September 25, 2009) discussed the progress that has been made on the G-20 action plan established in London, and to outline the future implementation of the G-20 initiatives. The February 2011 communiqué reiterated these goals but also sought to address global imbalances and the regulation of systemically important financial institutions (SIFIs).

The International Organization of Securities Commissions (IOSCO) is an international association of securities regulators.

IOSCO's mission is to "cooperate together to promote high standards of regulation in order to maintain just, efficient and sound markets; exchange information on their respective experiences in order to promote the development of domestic markets; unite their efforts to establish standards and an effective surveillance of international securities transactions; provide mutual assistance to promote the integrity of the markets by a rigorous application of the standards and by effective enforcement against offenses."

The Basel Committee on Banking Supervision (BCBS) provides a forum for regular cooperation on banking supervisory matters. The Committee's members come from Argentina, Australia, Belgium, Brazil, Canada, China, France, Germany, Hong Kong SAR, India, Indonesia, Italy, Japan, Korea, Luxembourg, Mexico, the Netherlands, Russia, Saudi Arabia, Singapore, South Africa, Spain, Sweden, Switzerland, Turkey, the United Kingdom and the United States. The current Chairman of the Committee is Mr. Nout Wellink, President of the Netherlands Bank.

The BCBS' mission "is to enhance understanding of key supervisory issues and improve the quality of banking supervision worldwide. It seeks to do so by exchanging information on national supervisory issues, approaches and techniques, with a view to promoting common understanding."

International Monetary Fund (IMF) "provides policy advice and financing to members in economic difficulties and also works with developing nations to help them achieve macroeconomic stability and reduce poverty."

Financial Stability Board (FSB) is comprised of senior representatives of national financial authorities (central banks, regulatory and supervisory authorities and ministries of finance), international financial institutions, standard setting bodies, and committees of central bank experts.

The mission of the FSB is to address vulnerabilities and to develop and implement strong regulatory, supervisory and other policies in the interest of financial stability.

US

US Federal Executive Branch is the office of the President of the United States, department, agencies, etc..

US House of Representatives is the lower house of the Congressional branch of the US Government.

House Financial Services Committee (HFSC) oversees all components of the US housing and financial services (banking, insurance, real estate, public and assisted housing, and securities). Various other House committees have concurrent jurisdiction over financial markets (e.g. the House Committee on Agriculture)

US Senate is the upper house of the Congressional branch of the US Government.

Senate Banking Committee (SBC) oversees the banking, housing and urban affairs sectors.

Various other Senate committees have concurrent jurisdiction over financial markets (e.g. the Senate Agriculture Committee)

Department of the Treasury is the executive agency responsible for promoting economic prosperity and ensuring the financial security of the United States. The Department is responsible for a wide range of activities such as advising the President on economic and financial issues, encouraging sustainable economic growth, and fostering improved governance in financial institutions.

Securities and Exchange Commission (SEC) is an independent agency with a mission to protect investors, maintain fair, orderly, and efficient markets, and facilitate capital formation.

Commodity Futures Trading Commission (CFTC) is an independent agency with a mission to regulate commodity futures and options markets in the US.

Federal Deposit Insurance Corporation (FDIC) is an independent agency created by Congress. The FDIC's mission is "to maintain stability and public confidence in the US financial system by insuring deposits, monitoring risks to the insurance deposit funds, and limiting the impact on the economy by a failed bank or thrift."

Federal Reserve Board (FRB) is an independent central bank with a mission to set monetary policy and to supervise financial service holding companies and certain banks

Federal Reserve Bank of New York (FRBNY) is one of the 12 branches of the Federal Reserve Banks. Its mission is "to foster the safety, soundness and vitality of our economic and financial systems."

Financial Stability Oversight Council (FSOC) will provide comprehensive monitoring to ensure the stability of the US financial system. The Council is charged with identifying threats to the financial stability of the United States; promoting market discipline; and responding to emerging risks to the stability of the United States financial system.

Office of Financial Research (OFR) is housed within the Treasury Department with and will support the FSOC and its member agencies by providing them with better financial data, information, and analysis so that policymakers and market participants have a more complete understanding of risk in the financial system.

Consumer Financial Protection Bureau (CFPB) is a division of the FRB that has jurisdiction over consumer financial products and services in the banking and non-banking sectors. Firms and products regulated by the SEC and CFTC are exempt from the jurisdiction of the CFPB. The scope and limits of this exemption have not been set or tested.

Office of the Comptroller of the Currency (OCC) is an independent agency housed within the Treasury Department. The OCC has primary supervisory responsibility for national banks and federal thrifts.

UK

The Bank of England (BoE) is the central bank of the United Kingdom and exists to ensure monetary stability while contributing to and enhancing financial stability.

HM Treasury (HMT) is the UK's economic and finance ministry. It is responsible for formulating and implementing the Government's financial and economic policy.

The UK is currently in the process of legislating for a **new regulatory architecture**, with reforms focusing on the break-up of the FSA and the establishment of three new institutions:

A **Financial Policy Committee (FPC)** will be established in the Bank of England, with responsibility for 'macro-prudential' regulation contributing to the achievement by the BoE of its (revised) financial stability objective.

'Micro-prudential' (firm-specific) regulation of financial institutions that manage significant risks on their balance sheets will be carried out by an operationally independent subsidiary of the Bank of England, the **Prudential Regulation Authority (PRA)**.

Responsibility for conduct of business and market regulation will be transferred to a new specialist regulator, the **Financial Conduct Authority (FCA)**. The FCA will have responsibility for conduct issues across the entire spectrum of financial services, the regulation of primary and secondary markets and the prudential regulation of non PRA-regulated firms.

EU

The Agency for the Cooperation of Energy Regulators (ACER) is an independent European structure established to foster cooperation among European energy regulators. It has also been granted powers under the Regulation on Energy Market Integrity and Transparency (REMIT) to oversee the application of REMIT across the EU and to issue guidance on interpretation of REMIT.

European Commission (EC) is the European Union's (EU) executive body and consists of 27 Commissioners, one for each member state of the EU. The EC proposes legislation, administers and implements policy, enforces laws, and negotiates international agreements.

The European Systemic Risk Board (ESRB) is an independent EU body responsible for macro-prudential oversight of the financial system within the EU

European Securities and Markets Authority (ESMA) is an independent EU Authority that contributes to safeguarding the stability of the European Union's financial system by ensuring the integrity, transparency, efficiency and orderly functioning of securities markets, as well as enhancing investor protection.

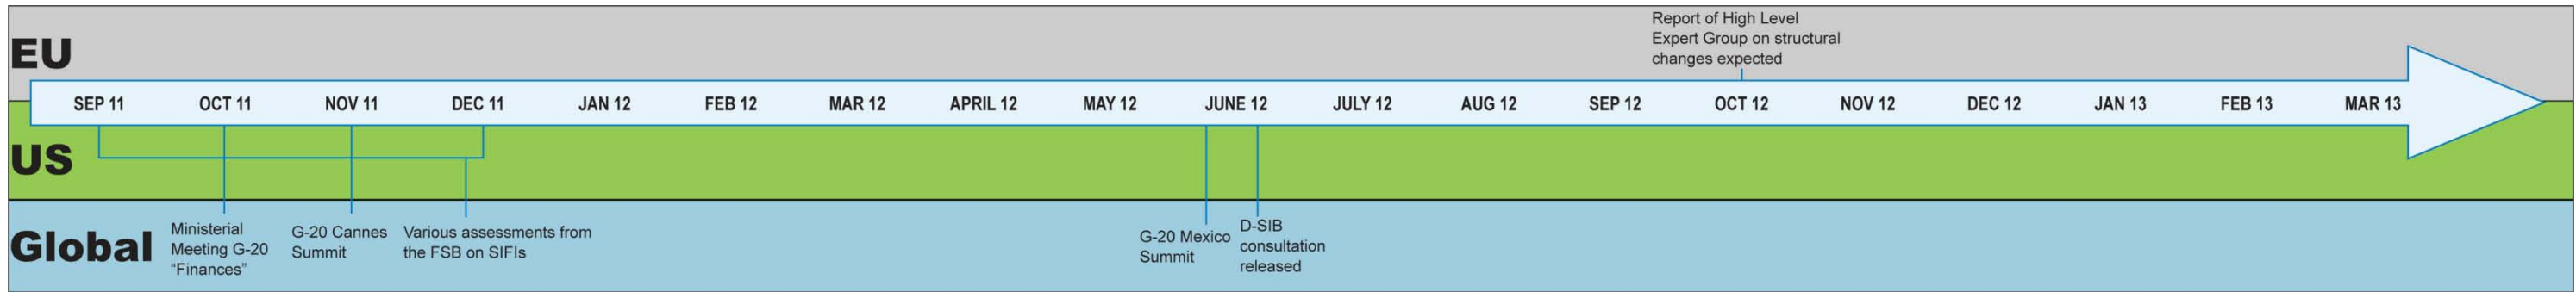

European Banking Authority (EBA) is an independent EU Authority that contributes to ensuring a high quality, effective, and consistent level of regulation and supervision of banks.

European Parliament is the directly elected body of the EU and is one part (the other being the Council) of the bicameral legislative branch of the EU institutions.

Council of the European Union (the Council) is made up of relevant ministers from each EU Member State and debates and passes European laws with the Council, scrutinizes other EU institutions (in particular, the Commission), and debates and adopts the EU budget.

European Council consists of the Head of State or Government of the EU Member States together with its President and the President of the Commission and defines general policy directions and priorities

The Office of the Gas and Electricity Markets (Ofgem) is the UK authority responsible for monitoring the gas and electricity markets in the UK. It has been designated as the relevant "national regulatory authority" for the UK under REMIT.

	Global	UK	EU	US
Definition of a Systemically Important Firm	<ul style="list-style-type: none"> IMF: An institution, market or instrument whose failure or malfunction causes widespread distress through direct impact or as a trigger for broader contagion Final Basel III text does not define a globally systemically important financial institution (G-SIFI) but recommends "loss absorbing capacity above regulatory standards" The BCBS is finalizing the methodology to assist in determining G-SIFIs FSB defines G-SIFIs as "institutions of such size, market importance, and global interconnectedness that their distress or failure would cause significant dislocation in the global financial system and adverse economic consequences across a range of countries" 	<ul style="list-style-type: none"> A firm is systemic when its collapse would impair the marketplace and have significant negative impact on the economy A firm can be systemic by size, inter-connectedness, or as a herd (market perception of a group of firms moving together, and if that group fails there would be systemic risk) 	<ul style="list-style-type: none"> CRD IV European Commission recognizes that G-SIFIs may include firms beyond just credit institutions and investment firms European Commission is reviewing policy approaches to deal with G-SIFIs 	<ul style="list-style-type: none"> FSOC report on concentration limits would prohibit financial companies from merging/consolidating/acquiring if resulting company's consolidated liabilities exceed 10% of aggregated consolidated liabilities FSOC adopts rule for designating non-bank financial companies as SIFIs weighting leverage, liquidity risk, interconnectedness, degree of primary regulation, and substitutability – Re-proposed October 2011 BHCs with >\$50 billion total consolidated assets as of 1 Jan 10 are systemic even if it de-banks BHC status
Monitor/ Regulate Systemically Important Institutions	<ul style="list-style-type: none"> BIS recommends 1-2.5% with ability to add an additional 1% if the firms global systemic importance increases significantly in the future Promote coordination and information exchange among regulatory authorities responsible for financial stability Set guidelines for participation in supervisory colleges; identification of most systemically important cross-border firms <ul style="list-style-type: none"> Establish supervisory colleges for complex financial institutions Support contingency planning for cross-border crisis management <ul style="list-style-type: none"> Implement FSB Principles for Cross-Border Cooperation on Crisis Management Scheduled planning discussions for firm-specific contingency planning FSB to prepare template for "de-risking" plans Greater consistency and systemic cooperation on int'l regulatory standards: FSB to develop proposal to identify fields of concern due to weakness/systemic importance Regulatory authority at the country level FSB recommends supervisors have mandates, independence and resources to identify risks early and intervene if necessary 	<ul style="list-style-type: none"> Financial Policy Committee (FPC) to be established in the Bank of England FPC will contribute to the Bank's amended objective to protect and enhance financial stability through identifying and taking action to remove or reduce systemic risks, with a view to protecting and enhancing the resilience of the UK financial system Powers of recommendation and direction to address systemic risk to: the Prudential Regulation Authority (PRA), which will be responsible for oversight of the safety and soundness of banks, insurers and other prudentially significant firms; and Financial Conduct Authority (FCA) The regulation and supervision of individual firms will remain the responsibility of the relevant regulators: the PRA and the FCA Any regulatory interventions to address systemic risk will need to be implemented by the PRA and the FCA Within the framework expected to be agreed internationally for G-SIFIs, the FPC could recommend that the PRA take a particular approach to G-SIFI regulation 	<ul style="list-style-type: none"> European System of Financial Supervision (ESFS), has the purpose of ensuring supervision of the EU's financial system; it comprises ESAs, the ESRB, and Member States' authorities Establishment of the European Systemic Risk Board (ESRB), comprised of the region's central bankers, with responsibility for the macro-prudential oversight of the financial system within the EU The ESAs, namely EBA, ESMA and EIOPA, were given wide-ranging powers, including developing technical standards; establishing the consistent application of EU supervisory rules; addressing binding individual decisions to financial market players; and others 	<ul style="list-style-type: none"> FSOC headed by the Treasury Secretary <ul style="list-style-type: none"> Create as an independent office within the Treasury, the Office of Financial Research (OFR), to provide data collection, standard setting and analytical support to FSOC and require reporting from industry, and assess fees to cover operations of the OFR and FSOC Fed to establish prudential standards and disclosure requirements to systemically important non-bank financial companies and bank holding companies with total consolidated assets of \$50 billion or more. Proposal issued December 2011 – comments due April 2012 Systemic non-bank financial companies and systemic bank holding companies must not exceed debt to equity ratio of 15:1 including any off balance sheet activities The Fed and Prudential Regulators in the US have issued for comment their proposal for the implementation of the Basel III capital standards in the US
Monitor Systemic/Macro Economic Factors	<ul style="list-style-type: none"> Financial Stability Board (FSB) to: <ul style="list-style-type: none"> Assess vulnerabilities in financial system, identify and oversee actions to address them Pledge to amend regulatory systems to ensure ability to identify macro-prudential risks FSB, IMF and BIS working jointly on the recommendations for macro-prudential policies and frameworks and will submit a joint progress report to G20 leaders at their November Summit 	<ul style="list-style-type: none"> An objective of BoE will be to protect and enhance the stability of the financial system of the UK, with the FPC contributing to this objective FPC will monitor the stability and resilience of the UK financial system with a view to identifying and assessing systemic risks; and use the levers and tools at its disposal to address those risks FPC's remit and powers will need to dovetail with those of other systemic bodies such as ESRB, and ensure macro-prudential tools are agreed and implemented in a way that is broadly consistent internationally 	<ul style="list-style-type: none"> European Systemic Risk Board (ESRB) to monitor macroeconomic systemic risk factors; pool/analyze information related to financial stability; issue recommendations/early risk warnings; coordinate with global systemic risk bodies; in collaboration with the ESAs, develop a common set of quantitative and qualitative indicators to identify / measure systemic risk 	<ul style="list-style-type: none"> FSOC to identify emerging systemic risks and improve interagency cooperation FSOC studying systemic impact of mortgage foreclosure
Other	<ul style="list-style-type: none"> FSB should complete by end-2011 an evaluation framework for the application and review of G-SIFI policies, including: i) the ways in which higher loss absorption capacity can be created in G-SIFIs; ii) other prudential measures, such as liquidity surcharges, large exposure restrictions, or systemic levies; and iii) structural measures such as restrictions on activities and legal form that could improve an institution's resolvability. FSB and national authorities will determine by mid-2011 those institutions to which the FSB G-SIFI recommendations will initially apply BCBS released a consultation in June setting out a principles-based framework for dealing with domestic systemically important banks (D-SIBs), including an unspecified level of higher loss absorbency 	<ul style="list-style-type: none"> UK Authorities adopted recommendations from Independent Commission on Banking, with a package of measures to secure financial stability. UK government White Paper altered original recommendations to add flexibility without materially changing content: <ul style="list-style-type: none"> Ring-fencing of banks' retail operations in separate legal entities. Contrary to the ICB report, the government White Paper includes vanilla FX and interest rate derivatives inside the ring fence to support retail and SME businesses New regulatory capital requirements for Ring Fenced Banks (RFB), comprised of a waterfall of extra buffers: <ul style="list-style-type: none"> Minimum core equity ratio of 10% will be required for large RFBs, while combined equity and other loss absorbing debt will need to be at least 17% of RWAs. Smaller RFBs will be required to meet a core equity requirement of between 7%-10% and combined equity and other loss absorbing debt of 10.5%-17%. Up to 3% loss absorbing capital (supervisory discretion) will also be required for G-SIB or RFBs above a certain size, if difficult to resolve. Independent governance arrangements for RFBs are to be introduced. Depositor preference is to be introduced for FSCS-insured deposits. UK authorities should have bail-in powers. 	<ul style="list-style-type: none"> The EU Commission has mandated a high-level expert group to examine and make recommendations about changes to EU banking structures to address systemic risk The final report is expected October 2012 	<ul style="list-style-type: none"> Systemic non-bank firms are subject to the same limits on bank acquisitions as banks All systemic firms must obtain Fed approval for acquisitions of \$10 billion or more in financial activities Banks cannot grow through acquisitions to more than <ul style="list-style-type: none"> 10% of total assets 10% of aggregate consolidated liabilities of all financial companies (also applies to systemically important non-banks) Fees levied on systemic firms to offset regulators costs FDIC assessments to be based on total liabilities, not deposits as is currently required by law

Crisis Management and Recovery & Resolution Planning

	Global	UK	EU	US
Primary Regulator		<ul style="list-style-type: none"> The newly established UK Prudential Regulatory Authority (PRA) is the primary regulator of banks, building societies and investment firms. It has resolution authority over banks and building societies and power to issue recovery and resolution plan (RRP) rules 	<ul style="list-style-type: none"> There is no primary regulator for Europe on crisis management. It is the domain of national authorities. The EU issued proposed directive on crisis management creates a role for the European Banking Authority to participate in the implementation of a group wide resolution plan for a firm operating cross border 	<ul style="list-style-type: none"> Creates the Orderly Liquidation Authority (OLA) that would allow the FDIC to unwind covered financial companies (including certain non-bank financial companies and bank holding companies) <ul style="list-style-type: none"> Non-bank financial companies are designated as added by the FSOC For financial companies OLA is invoked with a 2/3 majority vote by the FDIC board, the FRB and the Treasury Secretary For Broker Dealers OLA is invoked with a 2/3 majority vote by the SEC board, the FRB and the Treasury Secretary OLA can preempt insolvency proceedings
Recovery and Resolution Plans	<ul style="list-style-type: none"> All systemically important financial institutions should develop a practical and credible recovery and resolution plans that promotes the resilience of key functions and facilitates a rapid resolution or wind-down 	<ul style="list-style-type: none"> The PRA has delayed indefinitely the release of its recovery and resolution plan (RRP) rules (previously expected first quarter 2012). These rules will apply to UK-incorporated deposit-taking banks and full scope BIPRU £730K investment firms with assets in excess of £15 billion. The rules do not apply to unincorporated branches of non-UK firms. Key RRP requirements such as the reporting of derivatives positions and interbank exposures should in theory be harmonised with the US. Cross-border firms are permitted to use their home country's RRP provided it satisfies the PRA's requirements 	<ul style="list-style-type: none"> The proposed EU crisis management directive will have requirements for member states to adopt recovery and resolution plans, based on the FSB's requirements for Effective Resolution Regimes. They are likely to be somewhat generic leaving member states free to develop more detailed rules 	<ul style="list-style-type: none"> Requires large, complex companies (including non-bank financial companies) and banks to periodically submit Resolution and Recovery Plans (RRPs) or living wills "funeral arrangements" to the FDIC and the Fed If plans are deemed unacceptable, companies hit with higher capital requirements and restrictions on growth and activity, as well as possible divestment The first group of banks in the US will file their RRP with the FDIC on July 1st. A portion of these plans will be made public
Resolution Powers	<ul style="list-style-type: none"> GFMA supports the FSB's Key Attributes of Effective Resolution Regimes including bail-in as a resolution tool, temporary stay for financial contracts and firm specific cooperation agreements. 	<ul style="list-style-type: none"> The PRA has resolution authority over systemic deposit-taking banks to place the bank into the new UK Special Administration Regime – in consultation with the UK Treasury and the Bank of England. The resolution powers it may exercise include sale, bridge and public ownership. The UK supports bail-in but will wait for the EU directive before implementing it (which will likely not be before 2015). The UK does not have resolution authority over a non-deposit taking institution, ie an investment bank. Like bail-in, the UK will defer legislative action until adoption of the EU directive. 	<ul style="list-style-type: none"> The EU directive will require member states to adopt common resolution powers in the form of sale, bridge, asset separation and bail-in Bail-in will not apply to covered deposits, liabilities with original maturity less than one month. Resolution authorities have the option to exclude liabilities arising from derivatives 	<ul style="list-style-type: none"> FDIC will act as receiver for recapitalizing or liquidating covered financial companies SIFMA working with the FDIC on a recapitalization mechanism under the FDIC's powers
Other	<ul style="list-style-type: none"> National authorities should seek convergence of resolution regimes 	<ul style="list-style-type: none"> The UK Independent Commission on Banking has recommended primary and secondary bail-in powers with regard to all unsecured debt, and depositor preference <ul style="list-style-type: none"> The UK Government has adopted these recommendations 	<ul style="list-style-type: none"> EU directive will require Resolution Authorities to ensure an institution has a minimum amount of bail-inable liabilities 	<ul style="list-style-type: none"> FDIC can borrow from the Fed to finance wind-down/liquidation; DIF premiums based on assets, not deposits Merges bank & thrift prudential regulation under OCC No pre-funded resolution fund but industry assessments on BHCs with \$50+ billion assets to repay any treasury borrowings on taxpayer losses associated with use of the OLA The Fed is given primary supervisory authority over bank and nonbank SIFIs, the FDIC has back-up supervisory authority over these firms

	Global	EU	US*
Standardization of contracts	<ul style="list-style-type: none"> IOSCO Paper Encourage market to standardise CDS G-20 Statement All standardised contracts must be centrally cleared or exchange traded 	<ul style="list-style-type: none"> New Clearing Obligation All OTC derivatives to be centrally cleared -EU regulator (ESMA) to decide which class of derivatives will be mandatory for clearing Deadline for implementation of central clearing requirement in EU expected mid-2013 Criteria ESMA will look at to mandate central clearing of derivatives: degree of standardization (contractual terms and operational processes); volume and liquidity; availability of pricing information 	<ul style="list-style-type: none"> CFTC final rule on process of review of swaps for mandatory clearing effective September 2011 SEC finalises process of review for mandatory clearing of security-based swaps proposed CFTC rules on implementation of clearing, execution and documentation requirements to be phased-in through 2012/2013
Central Counter-Parties (CCPs)	<ul style="list-style-type: none"> G-20 Statement Establish CCPs subject to effective regulation and supervision IOSCO and CPSS paper Encourages the use of CCPs but warns about the potential of CCPs becoming systemic risk BCBS consultation on capitalization of exposures to CCPs 	<ul style="list-style-type: none"> New pan -EU regime regulating CCPs (in all asset classes) Minimum capital requirements for CCPs Prudential standards for CCPs (including to ensure CCP "skin in the game" – imposing minimum standards on margins, default funds, collateral and investment policies) Organizational requirements for CCPs (including on the composition of CCP risk committee) For CCPs clearing OTC derivatives, specific provisions on non-discriminatory access 	<ul style="list-style-type: none"> Central clearing is required for all swaps determined to be clearable unless one party is a non-financial, hedging end-user (end-user exception) Centrally cleared swaps must be executed on an exchange or swap execution facility (SEF) unless not accepted by any exchange or SEF CFTC released rule proposal on criteria for making a swap available to trade on SEF/DCM in December 2011 Final rules on clearinghouse core principles and risk management approved by CFTC in March 2012 CFTC publishes swap transaction compliance and implementation schedule for clearing requirements under section 2(h) of the CEA; CFTC proposes clearing determinations for certain CDS and interest rate swaps
Transparency and Oversight	<ul style="list-style-type: none"> IOSCO report on the principles of regulation and supervision of commodity derivatives markets Ensure a globally consistent approach to the oversight of markets 	<ul style="list-style-type: none"> EMIR introduces requirements to report OTC derivatives position to a trade repository – TR to be accessible only to regulators and supervisors MiFID legislative proposals have introduced pre and post-trade price transparency in OTC derivatives MiFID proposes position limits and position management powers to regulators in commodities derivatives markets Release of a consolidated tape for non-equities post-trade price transparency European parliament has now published draft report on Commission proposals 	<ul style="list-style-type: none"> Regulatory reporting for all derivatives trades All non-cleared swaps must be reported to a data repository, CFTC, or SEC All swap dealers and major swap participants must register with the CFTC (swaps) or the SEC (security based-swaps); CFTC final rules on registration requirements published January 2012 CFTC clarifies timing of registration in FAQ; while registration rules become effective 12 October 2012, entities relying on de minimis exemption will not be required to register until 31 December 2012 at earliest CFTC publishes final rules on real-time public reporting and swap data recordkeeping in January 2012
Regulation of the Market and Products	<ul style="list-style-type: none"> IOSCO-CPSS report on requirements for OTC derivatives data reporting and aggregation Guidance on data that should be collected, stored, and disseminated by trade repositories Recommendation for development and implementation of standard Legal Entity Identifiers (LEI) CFTC designates DTCC-SWIFT as LEI solution provider 	<ul style="list-style-type: none"> TRADING ISSUES MiFID will mandate trading of OTC derivatives on organised venues (final definition of what constitutes such a venue is still being discussed) CLEARING ISSUES Non-cleared trades now subject to "bilateral collateralization requirements" (including portfolio reconciliation, dispute resolution, portfolio valuation and exchange of collateral) Non-financial counterparties using OTC derivatives exempted from clearing requirements – if use of OTC derivatives is below a certain threshold – and exempted from exchange of collateral if they do bilateral trade. Intragroup transactions exempted from central clearing and from bilateral collateralization requirements (under certain conditions) Pension funds using OTC derivatives have a temporary exemption from central clearing requirements 	<ul style="list-style-type: none"> Section 716 Push Out Rule limits swap activity of FDIC-insured depository institutions to: <ul style="list-style-type: none"> Hedging and risk management Swap dealer activity limited to rates and asset classes that national banks can invest in (excluding non-cleared CDS) CFTC final rule on position limits published November 2011 CFTC final rule on external business conduct standards published February 2012; CFTC internal business conduct rules published April 2012 CFTC publishes proposed rule on a clearing exemption for swaps between certain affiliated entities in July 2012; SEC proposal expected
Margins and Capital	<ul style="list-style-type: none"> G-20 Statement Higher capital requirements for non-standard contracts FSB to assess actions Basel Committee and IOSCO release Consultation Paper on Uncleared Derivatives Margin (comments due 28 September 2012) 	<ul style="list-style-type: none"> Exposure to non-centrally cleared OTC derivatives expected to lead to higher capital charges Banks capital exposure to "EMIR compliant" CCPs to be more favorable than to non-EMIR compliant CCPs (review of CRD 4) For non-centrally cleared OTC derivatives trade, exchange of collateral is required by EMIR Require additional capital charges for non-centrally cleared contracts Require posting of initial and variation margin by financial institutions for bilaterally cleared contracts 	<ul style="list-style-type: none"> CFTC and US Prudential Regulators have proposed rules imposing minimum capital and margin requirements for swap dealers and major swap participants SEC proposal on capital and margin requirements expected fall 2012 Unsettled issues include non-cash collateral, end user margin, collateral segregation and inter-affiliate requirements, among others CFTC re-opened comment period of margin for uncleared swaps; comments due 14 September 2012 US prudential regulators re-open comment periods on margin and capital for covered entities. Comments due 26 November 2012
Other		<ul style="list-style-type: none"> Commitment to international regulatory convergence and to carry out an impact assessment on the effects of regulation on non-financial institutions Priority on governance at the CCPs, not ownership Coordination EU/US rules remains a question – extraterritorial provisions, consistency of rules of FX, equivalence recognition? 	<ul style="list-style-type: none"> CFTC releases cross border proposals July 2012; SEC proposals expected Temporary exemptions granted for certain Title VII provisions which became self-operative on 16 July 2011; permanent relief for some is expected SEC expected to release a full Title VII implementation schedule

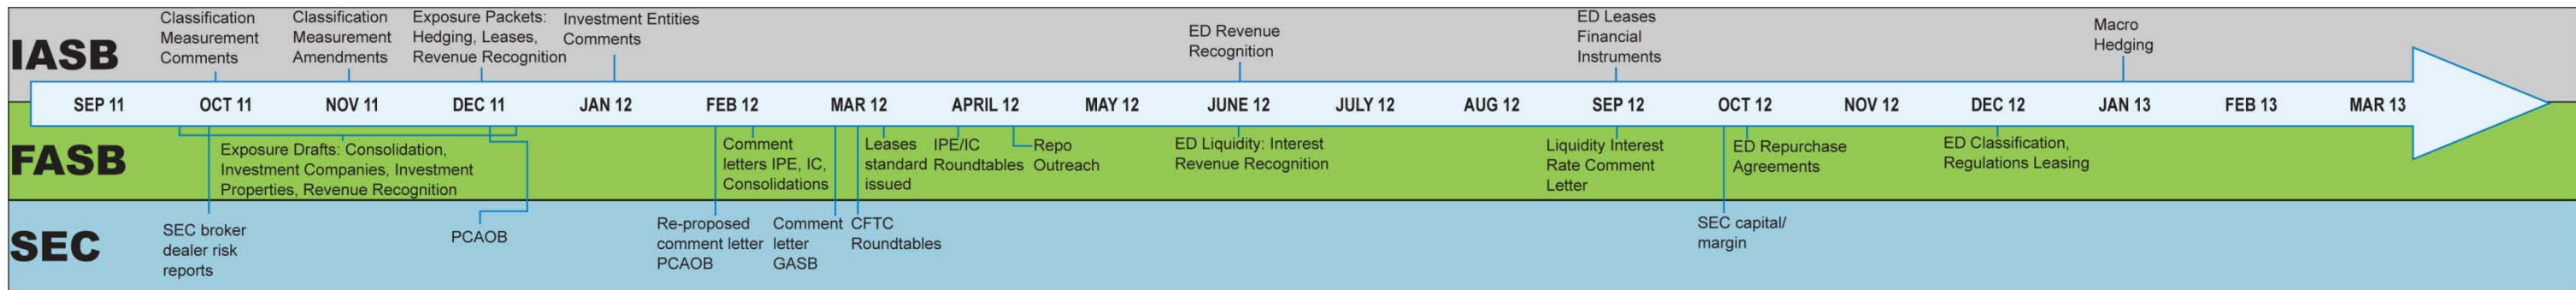

Capital Requirements

	Global	UK	EU	US
Leverage Ratio	<p>BCBS</p> <ul style="list-style-type: none"> Introduce a leverage ratio as a supplementary measure to the Basel II risk-based framework as a Pillar 1 tool <ul style="list-style-type: none"> Leverage ratio 3% of total equity over total exposures Transition period which starts with monitoring in 2011 Parallel run from 2013 Final adjustments 2017 Pillar 1 in 2018 	<ul style="list-style-type: none"> Maximum gross leverage ratio should be introduced as a backstop discipline against excessive growth in absolute balance sheet size The FSA does not currently set a leverage ratio requirement but welcomes its inclusion as part of the Basel III package The UK Government supports the minimum 3% leverage ratio 	<p>CRD IV:</p> <ul style="list-style-type: none"> A Pillar 2 (national supervisory oversight) treatment proposed: reporting requirements would fall under firms' current ICAAPs <ul style="list-style-type: none"> A 3% backstop (as per Basel III standards) has not been proposed Instead, during the observation period, national supervisors are likely to monitor averages of monthly leverage ratio over a given quarter European Commission to report by 31 Dec 2016 to European Parliament and Council on the impact and effectiveness of the leverage ratio 	<ul style="list-style-type: none"> Federal banking agencies to establish leverage requirements for insured depository institutions, their holding companies and non-bank holding companies Leverage requirements to be at least as stringent as current FDIC requirements The Fed must impose leverage requirements on systemically important companies and require them to maintain a debt-to-equity ratio of no more than 15-to-1 upon a determination by the FSO that companies pose a grave threat to US financial stability and the leverage limit will mitigate such threats
Reduce Pro-Cyclicality	<p>BCBS</p> <ul style="list-style-type: none"> Adjusting probability of default parameter so it is more conservative (Stressed VaR) Encourage forward looking provisioning/reduce disincentives to provision 2.5% capital conservation buffer, with restrictions on distribution of capital through dividends and bonuses if below the buffer level Counter-cyclical buffer up to 2.5% equity capital based on national circumstances; In some circumstances national authorities surpass 2.5%; Buffers in times of rapid credit growth to lean against excessive risk taking 		<p>CRD IV:</p> <ul style="list-style-type: none"> Introduces capital conservation and countercyclical buffers 	<ul style="list-style-type: none"> Supervisors and accounting standard setters should work together to make capital requirements countercyclical
International Standard	<p>BCBS</p> <ul style="list-style-type: none"> Improve the quality, consistency and transparency of capital; Predominant form of Tier 1 capital must be common shares and retained earnings; Harmonization of deductions now taken from T1 Capital; Hybrid capital with incentives to redeem will be phased out Risk coverage of the capital framework will be strengthened: Trading book, securitisation, derivatives, repos, securities financing activities, new proposals around counterparty credit risk Introduce a stressed VaR based on a 12-month period Starting 2013 capital requirements: Minimum common equity requirement will rise from the current 2% to 3.5%; Tier 1 capital requirement will rise from 4% to 4.5% Starting 2014 capital requirements: Banks will have to meet a 4% minimum common equity requirement; Tier 1 requirement of 5.5% Starting 2015 capital requirements: Banks will have to meet the 4.5% common equity requirement; Tier 1 requirement of 6% Total capital requirement remains at the existing level of 8.0% and so does not need to be phased in: <ul style="list-style-type: none"> The difference between the total capital requirement of 8.0% and the Tier 1 requirement can be met with Tier 2 and higher forms of capital In June 2011 the Basel Committee published a revised version of Basel III standards, incorporating its finalised rules on capital treatment for counterparty credit risk and credit valuation adjustment (CVA) 	<ul style="list-style-type: none"> CRD II: in force since 1 January 2011 CRD III: remuneration rules in effect since 1 January 2011, the remainder to be implemented by 31 December 2011 The UK authorities have expressed concern that the European Commission's CRD IV proposal may weaken Basel III standards, primarily through preventing member states from imposing higher capital requirements 	<p>CRD II:</p> <ul style="list-style-type: none"> Includes 5% retention on securitisations by originators, investor due diligence requirements, revise large exposure requirements, Pillar 2 and Pillar 3 <p>CRD III:</p> <ul style="list-style-type: none"> Strengthen capital requirements for banks re: risks relating to trading book (including securitisation), resecuritisations and remuneration policies Holding a securitised asset in a pool to be securitised could trigger additional capital requirements for entire pool Upgrade the capital requirements for complex securitisations both in banking and trading books <p>CRD IV:</p> <ul style="list-style-type: none"> Proposals implement Basel III CRD IV proposals from European Commission released on 20 July 2011, taking the form of a Directive and a Regulation Council and Parliament texts were finalised in May 2012, with an agreed text expected to be adopted in July 2012 	<ul style="list-style-type: none"> International standards for the minimum level of capital should be raised: <ul style="list-style-type: none"> Strengthen the definition of regulatory capital to improve the quality, quantity and international consistency Issue guidelines to harmonize the definition of capital by the end of 2009 Develop a simple, transparent, non-model based measure of leverage US banking agencies affirmed support for Basel III FDIC proposed all financial institutions, particularly big banks, be subject to the same minimum standards for capital Basel III – US proposal to implement standards issued and comments due on 22 October 2012
Other	<p>BCBS</p> <ul style="list-style-type: none"> Transparency of the capital base will be improved, with all elements of capital required to be disclosed along with a detailed reconciliation to the reported accounts Fundamental review of the trading book currently under consultation 	<ul style="list-style-type: none"> Increased use of host country powers regarding local subsidiary capitalization; ringfenced liquidity and restrictions on intra-group exposures The UK Government has set a 10% of RWAs minimum equity capital requirement for large UK ring-fenced retail banks, and a minimum total loss absorbent capital of 17% for large banks 	<p>CRD IV:</p> <ul style="list-style-type: none"> The use of a Regulation removes many national options and discretions from the CRD, moving closer to so-called maximum harmonisation, though a limited number of national decisions remain More international ongoing supervisory cooperation (e.g. colleges of supervisors) 	<ul style="list-style-type: none"> Treasury-led working group of federal regulators and outside experts to conduct review of existing capital requirements for banks and BHC; conclusions were expected by the end of 2009 Trust preferred and hybrid capital may be used as Tier 2 (not Tier 1)

Financial Transaction	<ul style="list-style-type: none"> At the request of the G-20, the IMF has produced a final report that did not endorse a transaction tax stating that such a tax “does not appear well suited to the specific purposes set out in the G-20 mandate” G20 Summit in Los Cabos on 18-19 June did not generate any new momentum for a global FTT despite the fact that the French president Hollande had mentioned interest in raising it again. The FTT was not mentioned in the final Communiqué 	<ul style="list-style-type: none"> Stamp Duty Reserve Tax (SDRT) is a 0.5% tax on UK equities; there are exemptions for intermediaries 	<ul style="list-style-type: none"> In France, FTT entered into force on 1 August 2012 that consists of a tax on the acquisition of shares in listed French companies, a tax on the acquisition of uncovered CDS on EU sovereign debt and a tax on cancelled or modified orders to capture HFT activity The Commission’s proposal for an FTT was discussed at the ECOFIN meeting in June. It was concluded that there was no unanimity on the Commission’s FTT proposal but that a number of Member States had expressed support to move forward with a subset of Member States by using the enhanced cooperation procedure. This was confirmed at the European Council on 28-29 June On 28 September, France and Germany wrote a letter to the Commission requesting it to submit a proposal for authorising enhanced cooperation with regard to the creation of an FTT. At the 9 October ECOFIN meeting it became clear that 11 Member States would support the use of the enhanced cooperation procedure. The Commission is now expected to send their authorisation proposal to the ECOFIN Council ahead of the 13 November meeting. This proposal (which is not a legislative proposal, it is just asking for authorisation to use enhanced cooperation) requires a Council decision taken by a qualified majority vote and could take place as early as 13 November 	<ul style="list-style-type: none"> Obama administration declined to support a financial transaction tax in G20 discussions and did not include an FTT proposal in its FY 2013 Budget Legislation introduced in the House and Senate would impose a broad-based financial transaction tax with few exceptions 0.003% on all financial transactions that include at least one U.S. party. The Joint Committee on Taxation has estimated that the measure would raise \$352 billion over 10 years, according to the bills’ sponsors The legislation was discussed briefly at a hearing of the Ways & Means Committee and at a joint hearing of the House and Senate tax writing committees The House bill (H.R. 3638) has 33 co-sponsors, including 2 Democratic members of the Ways & Means Committee (Rep. Pete Stark (D-CA) and Rep. Earl Blumenauer (D-OR)). It is sponsored by Rep. Pete DeFazio (D-OR) The Senate bill (S. 1787) is sponsored by Sen. Tom Harkin (D-IA) and has 3 co-sponsors
Bank Tax	<ul style="list-style-type: none"> At G-20’s request, the IMF has produced a final report on a recoupment tax <ul style="list-style-type: none"> Financial Stability Contribution tax is a broad based levy on systemically important firms Financial Activities Tax would be levied on the sum of profits and remuneration G-20 <ul style="list-style-type: none"> Agreed the financial sector should make a substantial contribution toward paying for any burdens associated with government interventions Recognizing that there is a range of policy approaches, we agreed to develop principles reflecting the need to protect taxpayers, reduce risks from the financial system, protect the flow of credit, take into account individual country’s circumstances and options, and help promote level playing field No final decision, will continue to debate at the November Summit 	<ul style="list-style-type: none"> Expected to generate £2½ billion of annual revenues UK, France and Germany issue a joint statement supporting bank levies UK government announced on 21 March that they will further increase the bank levy tax rate to 0.105% to make sure they will hit the revenue target of £2.5bn and to offset the benefit the financial sector would have from a reduction in corporation tax by 2% 	<ul style="list-style-type: none"> European Council agreed that Member States should introduce a system of levies and taxes on financial institutions 10 Member States have introduced levies 4 more countries are in the process of introducing levies Council of the European Union draft report summarizes the state of play on these levies (as of May 2011) European Commission consultation on crisis management includes section on financing resolution funds The European Commission has published their directive on recovery and resolution. The proposal includes the concept of resolution funds 	<ul style="list-style-type: none"> Obama administration has proposed an increased “financial crisis responsibility fee” that is included in the President’s FY 2013 budget. The amount of the proposed tax in the FY 2013 Budget is \$61 billion over 10 years, which is approximately twice what the President has proposed in the past. No implementing legislation has yet been introduced in the House or the Senate After a two year transition period where the Federal Reserve will pay for the Financial Stability Oversight Council (FSOC), the Office of Financial Research will fund the FSOC and itself with an assessment fee on all systemically important firms
Agency Fees				<ul style="list-style-type: none"> Federal Reserve can impose assessments and other fees on large financial institutions to carry out its supervisory responsibilities OCC funded by imposing fees/assessments/other charges on companies under supervision FDIC can impose assessments on companies to cover examination costs or as the FDIC deems necessary to carry out its responsibilities
Other			<ul style="list-style-type: none"> March 2011 resolution called for implementation in Europe if not implemented globally 	<ul style="list-style-type: none"> The Obama administration is preparing to implement the Foreign Account Taxpayer Compliance Act (FATCA). Enacted in 2010, FATCA would impose a 30% withholding tax on direct and indirect payments to non-exempt foreign financial institutions (FFIs) that decline to enter into an ongoing compliance agreement with Treasury by July 2013 that is designed to uncover unreported financial assets held by U.S. taxpayers The Obama administration strongly supports a “carried interest” tax that would have a significant impact on hedge funds and private equity firms. The proposal appears in the President’s FY 2013 Budget and has been the topic of active budget negotiations with House and Senate leaders FDIC deposit insurance reforms <ul style="list-style-type: none"> Assessment base will be average consolidated assets minus average tangible equity Deposit Insurance Fund may exceed 1.5% of estimated insured deposits FDIC deposit insurance amount increasing from \$100,000 to \$250,000

Hedge Funds	<ul style="list-style-type: none"> 23 Feb 2012 ASIC released for consultation draft regulatory guidance with new disclosure benchmarks and principles for hedge funds to improve investor awareness of the risks associated with these products ASIC finalised guidance on new disclosure benchmarks and principles for hedge funds to improve investor awareness of the risks associated with these products 		<ul style="list-style-type: none"> Regulator examined hedge fund activity in Canada to help identify any regulatory arbitrage in securities legislation governing this business. Hedge fund managers required to register
Short Sales	<ul style="list-style-type: none"> ASIC reports that short selling restrictions may have contributed to adverse market characteristics, such as reduced liquidity and increased price volatility, but exceptional circumstances at the time were justified to reduce risk of greater market disorder 		

	China	Hong Kong
Systemic Risk	<ul style="list-style-type: none"> China Banking Regulatory Commission (CBRC) tightens lending rules to deter real-estate speculation Bank of China has been added to the BCBS list of “systemically important” international banks CBRC will prohibit bank loans from entering the stock market in an effort to enhance risk control for Chinese banks; will also ban banks from providing guarantees for corporate bonds SAFE pointed out that during 1st half 2011, efforts were made to accelerate the five transformations of the concepts and methods of foreign exchange administration, rigorously crack down on the inflows of hot money and other illegal and irregular funds, actively prevent the risks of cross-border capital flows, and constantly deepen the reform of the foreign exchange administration system so as to improve the operation and management of foreign exchange reserves and to make further progress in various tasks. CBRC ordered commercial banks to improve the information disclosure system to better inform clients about risks when they buy wealth investment products from banks; vowed to improve financial regulation and boost the reformation of the country’s financial system PBOC pledges to prevent systematic risks to financial stability in 2012. This comes as China’s state-directed banking system attempts to clean up \$1.7 trillion in debts amassed by local governments and address risks lurking in the country’s underground system of private lending CBRC requires banks to have loan-loss provision account for at least 2.5% of their total advances from 2012 Minimum capital adequacy ratio for banks of systemic significance at 11.5%; banks with non-systemic significance at 10.5% by end 2013 Banks will be required to have capital adequacy ratio of at least 8%, with an extra 2.5 % surplus capital buffer during normal credit conditions Banks must have minimum core Tier-1 capital, which excludes perpetual preferred stock, of at least 5%, while their Tier-1 capital is set at 6% Systemically important commercial banks must have a minimum leverage ratio of 4% by the end of 2013, and those not considered systemically important will have a grace period until the end of 2016 CBRC publishes “Administrative Measures on the Leverage Ratio of Commercial Banks,” to start on 1 January 2012 The new rules on banks’ capital requirements will go into effect on 1 July 2012 China delays implementation of new capital rules for banks 2013 CBRC to set up Expert Committee to give guidance on carrying out the new BASEL Agreements (BASEL III) in Chinese banking sector 	<ul style="list-style-type: none"> Hong Kong Exchanges & Clearing Limited (HKEx) requires reporting dark pool trading activity HKEs published consultation paper to seek views on its proposals to reform the risk management framework of HKEx’s clearing houses: <ul style="list-style-type: none"> Introduce a standard margin system and a Dynamic Guarantee Fund at Hong Kong Securities and Clearing Company (HKSCC) Revise certain price movement assumptions in the clearing houses’ stress testing Revise the counterparty default assumption in the stress testing Revise collateral assumptions at HKFE Clearing Corporation (HKCC) and SEHK Options Clearing House SFC announced the establishment of a centralised unit overseeing risk management and strategy planning in order to reduce systemic risk and maintain financial stability in the securities and futures markets HKMA issued revised IC-5, incorporating the <i>Principles for sound stress testing practices and supervision</i> issued by the Basel Committee on Banking Supervision in May 2009 (BCBS Principles); the HKMA’s relevant supervisory practices and experience; as well as recommendations and observations made by international organizations and industry groups to address weaknesses in banks’ stress-testing practices
Capital Requirements	<ul style="list-style-type: none"> CBRC requires banks to have loan-loss provision account for at least 2.5% of their total advances from 2012 Minimum capital adequacy ratio for banks of systemic significance at 11.5%; banks with non-systemic significance at 10.5% by end 2013 Banks will be required to have capital adequacy ratio of at least 8%, with an extra 2.5 % surplus capital buffer during normal credit conditions Banks must have minimum core Tier-1 capital, which excludes perpetual preferred stock, of at least 5%, while their Tier-1 capital is set at 6% Systemically important commercial banks must have a minimum leverage ratio of 4% by the end of 2013, and those not considered systemically important will have a grace period until the end of 2016 CBRC publishes “Administrative Measures on the Leverage Ratio of Commercial Banks,” to start on 1 January 2012 The new rules on banks’ capital requirements will go into effect on 1 July 2012 China delays implementation of new capital rules for banks 2013 CBRC to set up Expert Committee to give guidance on carrying out the new BASEL Agreements (BASEL III) in Chinese banking sector 	<ul style="list-style-type: none"> The Banking (Amendment) Bill 2011 was gazetted on 9 Dec 2011. Main purpose of the bill is to amend the Banking Ordinance to provide for the implementation of Basel III in Hong Kong <ul style="list-style-type: none"> HKMA will draft and consult the industry on required capital and liquidity rules in phases. First phase of cap. requirements beginning 2013 The Banking Ordinance 2012 was gazetted on 9 March 2012 to put in place legal framework for implementation in HK of Basel III, which will be brought into operation phases from 1 January 2013. The ordinance empowers the Monetary Authority to make rules to prescribe the capital, liquidity and disclosure requirements applicable to authorised institutions BCBS: “High-cost credit protection” refers to situations where credit protection transactions are structured to enable the protection buyer to receive favourable risk-based capital treatment in short term, defer recognition of losses/costs of protection in earnings over extended period HKMA to review credit risk mitigation techniques employed by AIs in its on-going supervisory process where necessary, and will incorporate guidance set out in Basel’s statement on high-cost credit protection into its relevant supervisory guidance
Liquidity	<ul style="list-style-type: none"> CBRC guidance on liquidity management focuses on maintaining adequate liquidity at commercial banks (no date) China officially launched a new system to allow banks to trade loans on the country’s interbank market Banks are required to report their loan-to-deposit ratios on a daily basis 	<ul style="list-style-type: none"> Deposit-taking institutions required to meet 25% minimum monthly average liquidity ratio HKMA developed LM-2 and revised LM-1 for purpose of implementing the system and control standards set out in Basel
Accounting Standards	<ul style="list-style-type: none"> Deloitte Touche Tohmatsu, Pricewaterhouse Coopers, Ernst & Young, and KPMG (“Big Four”) must localize operations to be led by Chinese citizens and dominated by accountants holding China’s accountancy qualifications under new rules announced by Finance Ministry 	
Taxes		<ul style="list-style-type: none"> Amendment released about payment of SFC levies on sale and purchase of futures contracts traded by means of automatic trading services
Compensation	<ul style="list-style-type: none"> Guidelines issued limiting bonuses for senior management to three times base salary, and 40% of bonus pool should be locked up for three years and used against possible future risks 	<ul style="list-style-type: none"> Authorized Institutions encouraged to make relevant disclosures on annual basis. To increase transparency and promote market discipline, AIs are strongly encouraged to articulate how disclosed qualitative factors complement and support their overall risk management framework
OTC Derivatives	<ul style="list-style-type: none"> China has launched a new body for the central clearing of financial products China securities regulators have approved the trading contracts and trading rules for index futures China is expected to introduce credit default swaps by year-end, allowing banks to hedge risk CBRC amends rules for derivatives transactions to further expand scope SAFE requires banks to improve and standardise FX purchases and sales services China will launch central counterparty clearing mechanism for interest rate swaps market 	<ul style="list-style-type: none"> HKMA built trade repository system targeted for September 2012 launch Legislative Council has requested SFC to closely monitor if there is a need to introduce additional measures to maintain the orderly market operations and provide sufficient protection to investors HKMA and SFC issued joint consultation on proposed regulatory regime for HK’s OTC derivatives market. Proposed regime aims to improve overall transparency in OTC derivatives market, reduce interconnectedness of participants, and reduce systemic risk in the financial system The SFC issued guidelines for intermediaries performing product due diligence for the purpose of Code of Conduct HKEx is establishing a central counterparty (CCP) clearing facility for clearing OTC derivatives transactions. A link will be established between the new trade repository (HKTR) and the HKEx CCP for passing eligible OTC derivatives transactions to the CCP for clearing HKMA and SFC release consultation conclusions, supplemental consultation on proposals to regulate OTC derivatives market. Respondents were generally supportive of the proposed regulatory regime and recognised the need for Hong Kong to develop and implement measures for improving transparency, regulatory monitoring and reducing counterparty and systemic risk in the OTC derivatives market
Securitisation	<ul style="list-style-type: none"> Adopting the Basel II framework of capital adequacy for securitisation exposure CMBS properties must be “in use” with “steady cash flow”; Retail customers cannot purchase CMBS China delays proprietary trading limitations, which the CBRC had announced in January China issued guidelines for sales of asset-backed notes in its interbank market 	<ul style="list-style-type: none"> The SFC is collecting information on the types and values of non-exchange traded securities and futures products sold or distributed by licensed corporations
Credit Rating Agencies	<ul style="list-style-type: none"> China’s National Association of Financial Market Institutional Investors (NAFMII) is planning a credit rating firm that will charge investors rather than borrowers for risk assessments. 	<ul style="list-style-type: none"> Create a regulatory regime to license and supervise the activities of credit rating agencies in Hong Kong CRAs and their rating analysts are required to be licensed for Type 10 regulated activity and are subject to supervision by the SFC Type 10 licensees are required to comply with the provisions of the Code of Conduct for Persons Providing Credit Rating Services and with other legal and regulatory requirements that are generally applicable to all SFC licensees ESMA announced it considers the regulation of CRAs by the SFC in line with their regulation in the EU
Hedge Funds	<ul style="list-style-type: none"> Regulators have eased restrictions on asset managers’ trading of index futures, giving the green light to launch separately-managed account products aimed at high-net-worth investors China’s security regulator may open up the country’s massive and lucrative capital markets to international hedge funds 	
Short Sales	<ul style="list-style-type: none"> CSRC announced domestic securities brokerages can participate in margin trading and short selling CSRC proposes 10% raise for ceiling on short selling from the previously planned 5% rate. The ceiling for margin trading will now be 15% Trial begins to allow brokerages to borrow stock for clients wishing to conduct short selling and on behalf of clients for margin financing. Shanghai Stock Exchange 180 Index and four open-ended exchange-traded funds including the China 50 ETF will become eligible for margin trading and short sales in December 	<ul style="list-style-type: none"> SFC proposed short position that hits the threshold of 0.02% of the issued share capital of a listed company, or a market value of \$30 million, whichever is lower, has to be reported on a weekly basis SFC states there has been no indication to date that recent declines in the HK stock market are result of short selling activities, but SFC will not hesitate to immediately act to deter abusive short selling practices As of June 2012, market participants must report short positions to SFC under the Securities and Futures (Short Position Reporting) Rules Stock Exchange of HK implemented changes to short selling criteria for designated securities available for short selling, eligibility criterion related to market capitalisation and turnover velocity will be increased from \$1 billion to \$3 billion and from 40 to 50 percent respectively

Systemic Risk	<ul style="list-style-type: none"> MAS has opened a consultation on proposed enhancements to its corporate governance regulations and guidelines for locally incorporated banks, financial holding companies and insurers Singapore Exchange (SGX) proposes circuit breakers in securities market MAS has issued a consultation paper to seek comments on the draft legislative amendments to give effect to the revised regulatory regime for fund management companies (FMCs", as well as additional proposals to further enhance the business conduct requirements for FMCs MAS releases consultation on Technology Risk Management guidelines 	<ul style="list-style-type: none"> Created the "Task Force for Improved Corporate Governance Regarding Outside Directors" to improve banking regulation The Financial Services Commission (FSC) requires financial companies to set and implement their own risk management guidelines with respect to foreign currency derivatives. Such guidelines must include verification that transactions are for risk hedging and establishment of counterparty deal limits Government to strengthen financial monitoring and increase cooperation with BOK, FSC, FSS BOK announces intentions to restrict foreign exchange agencies from investing in foreign currency-denominated bonds issued domestically for the purpose of Korean won financing starting from 25 July 2011 <ul style="list-style-type: none"> Holding of bonds invested in prior to date of effect of this measure will, however, be allowed until maturity
Capital Requirements	<ul style="list-style-type: none"> Proposed amendments to MAS Notice 637 will require Singapore-incorporated banks to disclose qualitative and quantitative information about remuneration practices and policies in 7 different areas MAS releases series of proposals touching on changes to the financial resources adjustment, the reinsurance adjustments and the C2 risk requirements under the Risk Based Capital (RBC) framework. MAS announced Singapore-incorporated banks will meet higher capital adequacy requirements than Basel III standards: <ul style="list-style-type: none"> Meet a minimum Common Equity Tier 1 ("CET1") capital adequacy ratio ("CAR") of 6.5%, Tier 1 CAR of 8% and Total CAR of 10% from 1 January 2015 Meet the Basel III minimum capital adequacy requirements from 1 January 2013 Introduce a capital conservation buffer of 2.5% MAS responds to feedback on consultation on proposed amendments to MAS Notice 637, incorporating the Basel III capital reforms MAS establishes minimum capital adequacy ratios for Reporting Bank and methodology Reporting Banks shall use for calculating ratios MAS consults on proposed review of Risk-based Capital Framework for Insurance Business 	<ul style="list-style-type: none"> The government also plans to establish a capital flow monitoring headquarters in the Korea Centre for International Finance FSS releases report discussing impact of adoption of International Financial Reporting Standard (IFRA) since January 2011 FSC has drafted revision bill of the Financial Investment Services and Capital Markets Act (FSCMA). Expected outcome: <ul style="list-style-type: none"> Help home-grown IBs that can compete with global IBs in terms of funding capacity and reputation Strengthen the competitiveness of the KRX and help us lead the development of Asian capital markets, faced with a global trend of mergers among stock exchanges across the globe Provide more efficient and diverse financing methods to small-and-medium sized companies and new growth industries More innovative and customized financial products will be provided to meet a variety of investment demands, broadening investors' options FSS provides update on Basel Implementation for Bank Holding Companies (Basel II and III Implementation, Transitional Regime and Anticipated Effects)
Liquidity	<ul style="list-style-type: none"> Supports September BCBS recommendations on higher capital standards 	<ul style="list-style-type: none"> The Regulation on Supervision of Banking Business will be amended to employ banks' liquidity or loan-to-deposit ratio as measures of bank management soundness. The target ratio will be 100% with a grace period until the end of 2013. The FSS will review bank ratios MOSF released a paper that tightened regulation of the use of foreign currency bank loans; and improvement of FX soundness by tightening existing regulation of banks' foreign currency liquidity
Taxes	<ul style="list-style-type: none"> MOF invites public to give feedback (11 July to 1 August 2011) on proposed amendments to Income Tax Act, which are: <ul style="list-style-type: none"> Enhancement of Productivity and Innovation Credit (PIC) Scheme One-off corporate tax rebate of 20% up to \$10,000; or SME Cash Grant Induction of the Foreign Tax Credit (FTC) Pooling System and of the Maritime Sector Initiative (MSI) Changes to personal income tax rate structure 	<ul style="list-style-type: none"> MOSF will impose a withholding tax on interest received by overseas investors in foreign currency bonds issued in S. Korea With effect from next year, after parliamentary approval, foreign investors will be required to pay a 14% tax on interest income from Kimchi bonds (foreign currency-denominated bond issued in the South Korean market) Government imposes macro-prudential levy on banks' non-deposit foreign-currency liabilities starting on 1 August 2011
Compensation		<ul style="list-style-type: none"> Financial firms have to defer 40-60% of executive comp for at least 3 years
OTC Derivatives	<ul style="list-style-type: none"> SGX proposes amendments to Singapore Exchange Derivatives Clearing Limited rules: <ul style="list-style-type: none"> Introducing a mechanism to limit SGX Clearing Members' default management liabilities as well as changes to the manner in which the Clearing Fund will be used in default scenarios Refinements to the default management framework to strengthen SGX-DC's authority in the management of defaults and to provide greater clarity on procedures MAS proposes to expand scope of Securities and Futures Act (SFA) to regulate OTC derivatives as follows: <ul style="list-style-type: none"> Mandate the central clearing and reporting of OTC derivatives Extend current regulatory regimes for market operators, clearing facilities, capital markets intermediaries to OTC derivatives Introduce a new regulatory regime for trade repositories MAS reviews regulatory requirements for unlisted margined derivatives offered to retail investors MAS responds to feedback on proposed regulation of derivatives market in Singapore and consultation paper on amendments to the Securities and Futures Act MAS consults regarding proposed amendments to Securities and Futures Act on Regulation of OTC Derivatives Part II SGX enhances default management framework of derivatives market 	<ul style="list-style-type: none"> The Korea Financial Investment Association (KOFIA) has undertaken a new legislative initiative aimed at introducing a mandatory New Product Approval ("NPA") process <ul style="list-style-type: none"> Any new OTC derivatives product introduced to Korea of which the underlying is referenced to credit risk, natural or environmental or economic risks Any new OTC derivatives product offered to "General Investors" as defined in Financial Investment Services & Capital Markets Act Considering a tax on financial instruments of 0.01% MOSF released paper that introduced new ceilings on FX derivatives positions of domestic banks / branches of foreign banks The Bank of Korea and the Financial Supervisory Service (FSS) have agreed to tighten oversight of FX trades Decided to lower the ceiling on FX forward positions by 20% from 250% of capital to 200% of capital KRX amends the Enforcement Rules of the Derivatives Market Business Regulation (correction of trading error, publication of quotation data, expected matching price)
Credit Rating Agencies	<ul style="list-style-type: none"> MAS proposed that CRAs must be licensed by Capital Market Services (CMS) and be subject to licensing obligations MAS to implement regulatory framework for CRAs effective from 17 January 2012 <ul style="list-style-type: none"> CRAs to be regulated under the SFA and have to be licensed under the CMS 	<ul style="list-style-type: none"> Adopted tightened IOSCO standards
Hedge Funds	<ul style="list-style-type: none"> Singapore is looking into tightening hedge fund regulation including: <ul style="list-style-type: none"> Funds must have a dedicated compliance officer or face limits on the number of investors allowed One director must live in Singapore Must have at least two licensed representatives working in Singapore Capital requirements and business conduct rules MAS released a consultation paper on proposed enhancements to regulations affecting the investment management industry, including hedge-fund and private-equity managers <ul style="list-style-type: none"> Funds above S\$250 million and funds that serve accredited, institutional or retail investors will require licenses; base capital requirement may apply. In addition, fund-management firms will be required to maintain client assets with independent custodians and all fund managers will be subject to the same business conduct requirements 	<ul style="list-style-type: none"> Hedge fund management firms (HFMFs) are required to set guidelines for internal control over hedge fund management HFMFs are required to create a risk management division within the company For HFMFs wanting to invest own capital into hedge funds under their management, best practice guidelines set under several principles. Hedge fund managers are restricted from directly investing in hedge funds under their management There should be a "Chinese wall" between a hedge fund management division and other business parts of a company Hedge fund management firms are required to provide their clients with sufficient information about risks involved in hedge fund investment when they recommend the investment
Short Sales	<ul style="list-style-type: none"> May restrict the exemptions given to fund managers and financial intermediaries engaged in leveraged foreign exchange trading 	<ul style="list-style-type: none"> Korea to introduce a reporting regime for high-volume short sales in an effort to join the global effort to expand a pool of information for market supervision and maintain the orderly functioning or stability of the markets FSC and FSS introduce rules that will make it mandatory to file a report on short positions with regulators

Derivatives Rulemaking Summary

SEC Rulemakings Under Title VII of Dodd-Frank

As of 26 September, 2012

DATE ISSUED	ITEM	SECTION OF TITLE VII	GOAL OF PROPOSED RULEMAKING*	RIN (LINKS TO NOTICE)	DATE DUE
10/13/2010	Ownership Limitations and Governance Requirements for Security-Based Swap Clearing Agencies, Security-Based Swap Execution Facilities, and National Securities Exchanges with Respect to Security-Based Swaps under Regulation MC	765	The proposed rules are intended to mitigate conflicts of interest for security-based swap clearing agencies, security-based swap execution facilities, and national securities exchanges that post security-based swaps or make them available for trading. The SEC's proposed rules ("Proposed Regulation MC") require security-based swap clearing agencies, security-based SEFs and security-based swap exchanges to adopt ownership and voting limitations as well as certain governance requirements.	3235-AK74	11/26/2010
3/3/2011				3235-AK74 (reopened)	4/29/2011
10/13/2010	Interim Rule to Require Reporting of SBS	766	The interim rule is intended to clarify requirements to report security-based swap information to the SEC or to a registered security-based swap data repository until final rules are adopted. Parties are also required to preserve data pertaining to the terms of pre-enactment security-based swaps in support of the reporting requirements.	3235-AK73	12/20/2010
11/3/2010	Proposed Rule Against Fraud, Manipulation, and Deception in Connection with SBS	763	The proposed rule is intended to ensure that market conduct in connection with the offer, purchase or sale of any security-based swap is subject to the same general anti-fraud provisions that apply to all securities, as well as to reach misconduct in connection with ongoing payments and deliveries under a security-based swap. The proposed rule is intended to be a means to ensure that the security-based swap market operates with integrity, and that the SEC has the ability to enforce against fraudulent activities.	3235-AK77	12/23/2010
11/19/2010	Proposed Rule Regarding SBS Data Repository Registration, Duties, and Core Principles	763(i)	The proposed rule is intended to govern the registration, core principles, and duties of an SDR (including standards for maintaining and accessing data). Section 763(i) also provides the SEC with authority to adopt rules governing SDRs.	3235-AK79	1/24/2011
11/19/2010	Proposed Rules on Regulation SBSR -- Reporting and Dissemination of Security-Based Swap Information	763 and 766	The proposed rule is intended to provide post-trade transparency in the security-based swap markets and give all market participants access to transaction information at the same time. The proposed rule describes what parties would be responsible for reporting information, what information would be required to be reported, and where the information should be reported. Further, the rules would indicate what information would be publicly disseminated.	3235-AK80	1/18/2011
12/3/2010	Further Definition of "Swap Dealer," "Security-Based Swap Dealer," "Major Swap Participant," "Major Security-Based Swap Participant" and "Eligible Contract Participant"	712 and 721	The notice of proposed rulemaking, issued jointly with the CFTC, seeks to provide definitions of the terms "swap dealer" and "major swap participant." Section 712(d)(1) of the Dodd-Frank Act requires the Commissions, in consultation with the Federal Reserve Board, to further define these terms. The joint proposal in part would add new rules under the Securities Exchange Act of 1934 in connection with the definitions of "security-based swap dealer" and "major security-based swap participant."	3235-AK65	2/22/2011
4/18/2012				Final Rule and Interim Final	Final rules effective 7/23/2012 (comments on interim final rule due same day); compliance dates vary
12/15/2010	Rules Regarding the Process for Submissions for Review of SBS for Mandatory Clearing and Notice Requirement for Clearing Agencies	763	These rules are intended to allow regulators to monitor transactions, including prices and positions taken by traders. The proposed rules set requirements on how clearing agencies would provide information to the SEC about security-based swaps planned to be accepted for clearing. The SEC also proposed rules that set out the way in which "systemically important clearing agencies" would be required to submit advance notices for changes to their rules, procedures, or operations that could materially affect the nature or level of risk presented at such clearing agencies.	3235-AK87	2/14/2011
6/28/2012				Final Rule	Effective 8/13/2012; Compliance dates vary
12/15/2010	Proposed Rule Regarding the End-User Exception to Mandatory Clearing of SBS	763	The proposed rule, specifies the steps that end-users must follow to notify the SEC of how they generally meet their financial obligations when engaging in a security-based swap transaction exempt from the mandatory clearing requirement. Further, comments are sought on whether to provide an additional exemptions permitting certain financial institutions the use of clearing that is available to end-users. The proposed rules are intended to prevent abuse of the end-user clearing exception by requiring a non-financial entity to notify the SEC each time it elects to use the exception.	3235-AK88	2/4/2011

SEC Rulemakings Under Title VII of Dodd-Frank

As of 26 September, 2012

DATE ISSUED	ITEM	SECTION OF TITLE VII	GOAL OF PROPOSED RULEMAKING*	RIN (LINKS TO NOTICE)	DATE DUE
1/14/2011	Trade Acknowledgement and Verification of SBS Transactions	764	The proposed rule seeks to govern the way in which certain security-based swap transactions are acknowledged and verified by the parties who enter into them and to increase transparency of the SBS market. The proposed rule requires security-based swap dealers and major security-based swap participants to provide to their counterparties with a trade acknowledgement detailing information specific to the transaction.	3235-AK91	2/22/2011
2/2/2011	Propose rules regarding the registration and regulation of SBS execution facilities	763	These proposed rules define security-based SEFs and establish their registration requirements, duties, and core principles. The rule is intended to facilitate the move of security-based swaps trading onto regulated trading markets, allowing for more transparency and reduced systemic risk.	3235-AK93	4/4/2011
3/2/2011	Proposed Rule on Clearing Agency Standards for Operation and Governance	763 and 805	The proposed rules are designed to further strengthen the oversight of clearing agencies and mitigate systemic risk. The rules cover the registration and standards for the operation and governance of clearing agencies, seeking to enhance the regulatory framework for the supervision of clearing agencies.	3235-AL13	4/29/2011
3/17/2011	Beneficial Ownership Reporting Requirements and SBS	766	The rule proposes to preserve the application of existing SEC beneficial ownership rules to those who purchase or sell SBS. The rule is intended to clarify that following the July 16, 2011 statutory effective date of Section 13(o), persons who purchase or sell security-based swaps will remain within the scope of these rules to the same extent they currently are.	3235-AK98	4/15/2011
6/8/2011				Final Rule	Effective 7/16/2011
4/27/2011	Rules and Interpretive Guidance Further Defining "Swap," "Security-Based Swap," and "Security-Based Swap Agreement"; Mixed Swaps"; and Governing Books and Records for "Security-Based Swap Agreements"	721	The rulemaking seeks to provide guidance in rules and interpretations by using criteria that should clarify whether a particular instrument is a swap regulated by the CFTC, a security-based swap regulated by the SEC, or a mixed swap regulated by both agencies.	3235-AL14 Correction	7/22/2011
6/18/2012				Final Rule	Effective 10/12/2012; Comments on interpretation due by 10/12/2012
6/10/2011	Exemptions From Registration Requirements for Security-Based Swaps Issued by Certain Clearing Agencies		The rules exempt transactions by clearing agencies in SBS from all provisions of the Securities Act, other than the Section 17(a) anti-fraud provisions, as well as exempt these security-based swaps from Exchange Act registration requirements and from the provisions of the Trust Indenture Act, provided certain conditions are met.	3235-AL16	7/25/2011
3/30/2012				Final Rule	Effective 4/16/2012
6/15/2011	Exemptive Order Providing Guidance and Temporary Relief Regarding Security-Based Swap Provisions of Dodd-Frank Act	739 and 754	Guidance issued to provide legal certainty and clarity on Title VII requirements applicable to security-based swaps that will not go into effect on July 16 and to provide temporary relief from compliance with most of the new Exchange Act requirements that would otherwise apply on July 16.	Exemptive Order	7/6/2011
6/29/2011	Proposed Rules on Business Conduct Standards for Security-Based Swap Dealers and Major Security-Based Swap Participants	764	The proposed rules are intend to bring transparency to the SBS market, ensure that customers in these transactions are treated fairly, and to establish a framework that protects investors and also promotes efficiency, competition, and capital formation.	3235-AL10	8/29/2011

* "Goal of Proposed Rule" Section descriptions are interpreted from press releases and statements from the SEC

SEC Rulemakings Under Title VII of Dodd-Frank

As of 26 September, 2012

DATE ISSUED	ITEM	SECTION OF TITLE VII	GOAL OF PROPOSED RULEMAKING*	RIN (LINKS TO NOTICE)	DATE DUE
7/1/2011	Additional Guidance, Interim Relief and Exemptions for Security-Based Swaps Under Dodd-Frank Act	739 and 754	The interim final rule provides exemptions from the Securities Act, Trust Indenture Act and other provisions of the federal securities laws to allow certain security-based swaps to continue to trade and be cleared as they have pre-Dodd-Frank. That interim relief will extend until the Commission adopts rules further defining "security-based swap" and "eligible contract participant."	Interim Final Rule	8/15/2011
			The order grants temporary relief and interpretive guidance to make clear that a substantial number of the requirements of the Exchange Act applicable to securities will not apply to security-based swaps when the revised definition of "security" goes into effect on July 16. Federal securities laws prohibiting fraud and manipulation will continue to apply to security-based swaps after that date. To enhance legal certainty for market participants, the Commission also provided temporary relief from provisions of U.S. securities laws that allow the voiding of contracts made in violation of those laws.	Exemptive Order	7/15/2011
7/5/2011	Extension of Temporary Exemptions for Eligible Credit Default Swaps to Facilitate Operation of Central Counterparties to Clear and Settle Credit Default Swaps	761	The temporary exemption was extended to facilitate the operation of one or more central counterparties for credit default swaps during the consideration of rules implementing the clearing provisions of Dodd-Frank.	3235-AK26	Effective 7/8/2011 through 4/16/2012
7/7/2011	Interim Final Rule on Amendment to Rule Filing Requirements for Dually-Registered Clearing Agencies	763	The amendment expands the list of categories that qualify for summary effectiveness under the Securities Exchange Act of 1934 to include any matter effecting a change in an existing services of a clearing agency registered with the SEC that both primarily affects the futures clearing operations of the clearing agency with respect to futures that are not security futures and does not significantly affect any securities clearing operations of the clearing agency or any related rights or obligations of the clearing agency or persons using such service.	3235-AL18	Effective 7/15/2011; Comments due 9/15/2011
7/13/2011	Interim Final Rule on Retail Foreign Exchange Transactions	742(c)	Under 742(c) of Dodd-Frank, certain foreign exchange transactions with persons who are not "eligible contract participants" (i.e., retail forex transactions) with a registered broker-dealer will be prohibited as of 7/16/2011. Thus, the interim final temporary will allow registered broker-dealers to engage in a retail forex business until 7/16/2012, provided it complies with the Securities Exchange Act of 1934 and applicable SRO rules.	3235-AL19	Effective 7/15/2011; Comments due 9/13/2011
8/31/2011	Use of Derivatives by Investment Companies Under the Investment Company Act of 1940 (Concept Release)	n/a	The SEC is seeking public input on a range of issues through a concept release, to determine whether regulatory initiatives/guidance applicable to the derivatives market is needed that would continue to protect investors and fulfill the purposes of the underlying Investment Company Act.	3235-AL22	Comments due 11/7/2011
10/12/2011	Registration of Security-Based Swap Dealers and Major Security-Based Swap Participants	764(a)	The proposed rule lays out the process by which security-based swap dealers (SBSDs) and major-security based swap participants (MSBSPs) must register with the SEC. Under the proposal, SBSDs and MSBSPs would register by electronically filing a new form, Form SBSE, which is based on the broker-dealer registration form, Form BD. Further, those swap entities registered/registering with the CFTC would further be able to register with the SEC using a shorter form (Form SBSE-A) with a copy of the CFTC filing.	3235-AL05	Comments due 12/19/2011
6/28/2012	Registration of Security-Based Swap Dealers and Major Security-Based Swap Participants	763(a)	The proposed rule lays out the process by which security-based swap dealers (SBSDs) and major-security based swap participants (MSBSPs) must register with the SEC. Under the proposal, SBSDs and MSBSPs would register by electronically filing a new form, Form SBSE, which is based on the broker-dealer registration form, Form BD. Further, those swap entities registered/registering with the CFTC would further be able to register with the SEC using a shorter form (Form SBSE-A) with a copy of the CFTC filing.	3235-AL05	Comments due 12/19/2011

CFTC Rulemakings Under Title VII of Dodd-Frank

As of 26 September, 2012

DATE ISSUED	ITEM	SECTION OF TITLE VII	GOAL OF PROPOSED RULEMAKING*	RIN (LINKS TO NOTICE)	DATE DUE
10/1/2010	Financial Resources Requirements for DCOs and SIDCOs	725(c) and 805(a)	The goal of the proposed rulemaking is to implement financial resources requirements for DCOs in accordance with DCO Core Principle B, which has been revised by the Dodd-Frank Act. The proposed rulemaking would also establish additional or enhanced financial resources requirements for SIDCOs, in anticipation of the possible designation by the Financial Stability Oversight Council of certain DCOs as systemically important. Financial resources requirements are important because, in the event of a default by one of a DCO's clearing members, the DCO would continue to have obligations to other clearing members and therefore must have sufficient resources to meet those obligations in a timely fashion. A DCO also needs sufficient financial resources to cover its operating costs in the ordinary course of business.	3038-AC98, 3038-AD02	12/13/2010
10/1/2010	Proposal to Mitigate Potential Conflicts of Interest in the Operation of DCOs, DCMs, and SEFs	726(a), (b), and (c)	The notice of rulemaking proposes to implement new statutory provisions enacted by Title VII of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act") with respect to conflicts of interest. The proposed rules are designed to mitigate potential conflicts of interest in the operation of a derivatives clearing organization ("DCO"), designated contract market ("DCM"), and a swap execution facility ("SEF") through (i) structural governance requirements and (ii) limits on ownership of voting equity and the exercise of voting power.	3038-AD01	11/17/2010
10/1/2010				3038-AD29	12/10/2010
6/12/2012	Interim Final Rule Regarding Reporting of Pre-enactment Swap Transactions	729	This rulemaking adopts Part 44 of the Commission's regulations requirements for the reporting by specified counterparties of swap transactions entered into before July 21, 2010 (the date of enactment of the Dodd-Frank Act) the terms of which had not expired by that date (pre-enactment unexpired swaps). The rule requires that certain information related to such transactions be reported to a registered swap data repository or to the Commission within 60 days of the registration of the appropriate swap data repository under new Section 21 of the CEA or by the compliance date to be established in permanent reporting rules to be established pursuant to new Section 2(h)(5) of the CEA, whichever occurs first. The goal of the rulemaking is to provide for retention of certain swap data until such time as permanent reporting rules are established under the Dodd-Frank Act.	Final Rule	Effective 8/13/2012; compliance dates vary
10/19/2010	Proposed Rule Regarding the Definition of Agricultural Commodity			ANPR	10/28/2010
7/13/2011				Final Rule	Effective 9/12/2011
4/18/2012	Final (and Interim Final) Rule on Commodity Options	737	Rulemaking aimed at a definition of the term agricultural commodity, which will be necessary for, among other things, the Commission's agricultural swaps rulemaking and the Commission's agricultural commodity speculative position limit rulemaking – both of which stem from the Dodd-Frank Wall Street Reform and Consumer Protection Act.	Final and Interim Final Rule	Final Rule effective 6/26/2012 (comments on interim final rule due on same day); compliance dates vary
10/19/2010				3038-AD17	12/2/2010
7/7/2011				Final Rule	Effective 9/20/2011
9/16/2011	Proposed Regulations Regarding Position Reports for Physical Commodity Swaps	737	The notice of rulemaking proposes to establish a system for reporting swap position in swaps that are economically equivalent to regulated futures (and option) contracts. The proposed reports would enable the Commission to meet its statutory responsibility for enforcing aggregate position limits that cover economically equivalent swaps in the absence of other sources of positional swaps data.	Temporary Relief	Effective until 11/21/2011 for cleared swaps; 1/20/2012 for uncleared swaps
10/26/2011				3038-AC15	12/3/2010
12/5/2011	Proposed Rule on Regulations 1.25 and 30.7 Regarding Investment of Customer Funds	939A	The CFTC is proposing to amend its regulations regarding the investment of customer segregated fund and funds held in an account subject to CFTC Reg. 30.7.	Final Rule	Effective 2/17/2012; compliance required by 6/18/2012
10/26/2010	Proposed Rule Regarding Prohibition of Market Manipulation	753	The notice of rulemaking proposes two rules which collectively prohibit all manner of fraud and manipulation in the markets subject to the jurisdiction of the Commission.	3038-AD27	1/3/2011
7/7/2011				Final Rule	Effective 8/15/2011
10/26/2010	ANPR on Disruptive Trading Practices	747	The Advanced Notice of Proposed Rulemaking seeks comments on the statutory provisions of Section 747 of Dodd-Frank as well as whether the Commission should promulgate additional rules to prohibit disruptive trading practices as well as rules reasonably necessary to prohibit the trading practices specified in the statute and any other trading practice disruptive of fair and equitable trading.	3038-AD26 (ANPR)	1/3/2011
10/26/2010	Proposed Rules to Implement New Statutory Provisions in Part 40 of the Commission's Regulations [procedures for new products and rules of SEFs and SDRs]			3038-AD07	1/3/2011
7/7/2011		745	This notice of proposed rulemaking implements the Dodd-Frank Act's new statutory framework for certification and approval of new products, rules, and rule amendments submitted to the Commission by registered entities. The proposed rules also prohibit the listing or clearing of event contracts based on certain excluded commodities, establish special procedures for certain rule changes proposed by systematically important derivatives clearing organizations, and provide for the tolling of review periods pending the resolution of jurisdictional questions raised by either the SEC or the CFTC.	Final Rule	9/26/2011
				Correction	

CFTC Rulemakings Under Title VII of Dodd-Frank

As of 26 September, 2012

DATE ISSUED	ITEM	SECTION OF TITLE VII	GOAL OF PROPOSED RULEMAKING*	RIN (LINKS TO NOTICE)	DATE DUE
10/26/2010	Process for Review of Swaps for Mandatory Clearing	723(a)(3) and 745(b)	The Dodd-Frank Act requires any person that engages in a swap to submit the swap for clearing to a derivatives clearing organization (DCO) if the Commission has determined that the swap is required to be cleared. The goal of the proposed rulemaking is to implement a process by which the Commission will review swaps to determine whether they are required to be cleared.	3038-AD00	1/3/2011
7/7/2011				Final Rule	Effective 9/26/2011
11/10/2010	Designation of Chief Compliance Officer	731	The goal of the proposed rulemaking is to implement the Dodd-Frank Act's requirements on designation, qualifications, and duties of a chief compliance officer (CCO) as well the requirements relating to the annual compliance report, to be prepared by the chief compliance officer and furnished to the Commission.	3038-AC96	1/18/2011
2/23/2012				Final Rule	Final rules effective 6/4/2012; compliance dates vary
11/10/2010	Conflicts of Interest regarding Research and Clearing for FCMs & Ibs; Conflicts of Interest regarding Research and Clearing for SDs & MSP	731	Sections 731 and 732 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act) amend the Commodity Exchange Act (CEA) by directing swap dealers, major swap participants, futures commission merchants, and introducing brokers to implement certain conflicts of interest systems and procedures that establish safeguards within the firm. The goal of the proposed rulemaking is to promulgate the requirements for such conflicts of interest systems and procedures.	3038-AC96	1/18/2011
2/23/2012				3038-AC96	1/24/2011
				Final Rule	Final rules effective 6/4/2012; compliance dates vary
11/10/2010	Duties for Swap Dealers and Major Swap Participants	731	The Dodd-Frank Act sets forth certain duties for swap dealers and major swap participants, including the duty to: 1) Monitor trading to prevent violations of applicable position limits; 2) Establish risk management procedures adequate for managing the day-to-day business of the swap dealer or major swap participant; 3) Disclose to the Commission and to applicable prudential regulators general information relating to swap trading practices and financial integrity; 4) Establish and enforce internal systems and procedures to obtain information needed to perform all of the duties prescribed by Commission regulations; 5) Implement conflicts of interest systems and procedures; and 6) Refrain from taking any action that would result in an unreasonable restraint of trade or impose a material anticompetitive burden on trading or clearing. The goal of the proposed rulemaking is to set forth business conduct standards for swap dealers and major swap participants to ensure compliance with the aforementioned duties.	3038-AC96	1/24/2011
2/23/2012				Final Rule	Final rules effective 6/4/2012; compliance dates vary
11/10/2010	Registration of Foreign Boards of Trade	738	The notice of proposed rulemaking proposes a registration system for foreign boards of trade (FBOT) seeking to provide their members or other participants located in the United States with direct access to the FBOT's electronic trading and order matching system. The authority to implement the registration system is found in Section 4(b) of the Commodity Exchange Act, as amended by the Section 738 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act). Section 738 of the Dodd-Frank Act specifically provides that the Commission may adopt rules and regulations requiring registration for those FBOTs that provide direct access, including rules and regulations establishing procedures applicable to registration. In so doing, the Commission is to consider whether the FBOT is subject to comparable, comprehensive supervision and regulation by the appropriate governmental authorities in the FBOT's home country. Direct access is defined in the new legislation as an explicit grant of authority by an FBOT to an identified member or other participant located in the U.S. to enter trades directly into the FBOT's trade matching system.	3038-AD19	1/18/2011
12/5/2011				Final Rule	Effective 2/21/2012
11/10/2010	Registration of Swap Dealers and Major Swap Participants	716(c) and 731	The proposal would establish a registration process for swap dealers and major swap participants so that they can comply with the registration requirement under the Dodd-Frank Act. The CFTC staff responded to questions from market participants and other interested parties in an FAQ, clarifying the timing of when entities will be required to register as a swap dealer.	3038-AC95	1/24/2011
1/11/2012				Final Rule	Effective 3/19/2012
9/10/2012				Correction to Final Rule	
				FAQ	N/A
11/10/2010	Whistleblower Incentives and Protection	748	The Notice of Proposed Rulemaking seeks comments on the statutory provisions of Section 748 of Dodd-Frank as well as whether the Commission should promulgate rules to implement whistleblower incentives and protections of Section 748 to establish a whistleblower program that enables the Commission to pay an award, under regulations prescribed by the Commission and subject to certain limitations, to eligible whistleblowers who voluntarily provide the commission with original information about a violation of the Commodity Exchange Act that leads to the successful enforcement of a Commission covered judicial or administrative action, or related action.	3038-AD04	2/4/2011
8/4/2011				Final Rule	Effective 10/24/2011
11/19/2010	Protection of Cleared Swaps Customers Before and After Commodity Broker Bankruptcies	724	Section 724 of the Dodd-Frank Act amends the Commodity Exchange Act (CEA) by inserting a new section 4d(f), concerning the protection of the collateral of the swaps customers of futures commission merchants. The goal of the request for comment is to obtain reliable information the Commission can use to implement the requirements of the statute in a cost-effective manner.	3038-AD99	1/18/2011
11/19/2010	Real Time Public Reporting of Swap Transaction and Pricing Data	727	The notice of proposed rulemaking proposes to implement a real-time public reporting regime for swaps and to specify the criteria for what constitutes a block trade and a large notional swap and the appropriate time delay for public dissemination of block trade and large notional swap transaction and pricing data. The proposed rules are designed to make swap transaction and pricing data available to the public in real-time, promote transparency and enhance price discovery while protecting the anonymity of market participants.	3038-AD08	2/7/2011
12/20/2011				Final Rule	Effective 3/9/2012
8/13/2012				Correction to Final Rule	
11/19/2010	Registration and Regulation of Swap Data Repositories	728	This notice of proposed rulemaking implements Title VII of the Dodd-Frank Act, which in Section 728 establishes swap data repositories (SDR) as a new registered entity under the Commodity Exchange Act. Registered SDRs will collect and maintain data and information related to swap transactions and to make such data and information directly and electronically available to regulators as prescribed by the Commission. In performing these functions, SDRs must become registered with the Commission and must comply with core principles, duties and other requirements specified in new Section 21 of the CEA and implemented by the Part 49 Rules.	3038-AD20	2/22/2011
8/4/2011				Final Rule	Effective 10/31/2011

CFTC Rulemakings Under Title VII of Dodd-Frank

As of 26 September, 2012

DATE ISSUED	ITEM	SECTION OF TITLE VII	GOAL OF PROPOSED RULEMAKING*	RIN (LINKS TO NOTICE)	DATE DUE
11/19/2010	Swap Data Recordkeeping & Reporting	728 and 729	This notice of proposed rulemaking implements the Dodd-Frank Act's new statutory framework regarding swap data recordkeeping and reporting requirements for swap data repositories (SDRs), derivatives clearing organizations (DCOs), designated contract markets (DCMs), swap execution facilities (SEFs), swap dealers (SDs), major swap participants (MSPs) and swap counterparties who are neither swap dealers nor major swap participants (including counterparties who qualify for the end user exception with respect to particular swaps).	3038-AD19	2/7/2011
12/20/2011				Final Rule	Effective 3/12/2012; compliance dates vary
11/19/2010	Protection of Collateral of Counterparties to Uncleared Swaps	713(c) and 724(c)	Section 724(c) of the Dodd-Frank Act amends the Commodity Exchange Act (CEA) by inserting a new section 4s(1), which requires that swap dealers and major swap participants notify their counterparties that such counterparties have a right to require that any initial margin which they post to guarantee uncleared swaps be segregated at an independent custodian. The goal of the proposed rulemaking is to implement that portion of the statute by proposing rules concerning such notifications and such segregated accounts.	3038-AD28	2/1/2011
12/1/2010	Core Principles and Other Requirements for Designated Contract Markets	735	The rulemaking implements Section 735 of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 ("Dodd-Frank Act"), which amended Section 5 of the Commodity Exchange Act ("CEA") governing the designation and operation of designated contract markets ("DCMs"). The proposed rulemaking also implements the provisions under the Dodd-Frank Act that pertain to the processing, trading and execution of swaps on DCMs.	3038-AD09	2/22/2011
3/18/2011				Final Rule	4/18/2011
5/10/2012				Correction	Effective 8/20/2012; compliance dates vary
6/25/2012					
12/1/2010	Derivative Clearing Organization Definitions, Procedures and Core Principles	725(b) and (c)	The notice proposes definitional and procedural changes to Parts 1 and 39, requirements for submitting portfolio margining rules for prior approval, requirements for a Derivatives Clearing Organization's ("DCO") chief compliance officer ("CCO"), and rules to implement DCO Core Principles A (compliance), H (rule enforcement), N (antitrust considerations), and R (legal risk).	3038-AC98	2/11/2011
10/18/2011				Final Rule	Effective January 9, 2012 (letters of credit provisions May 7, 2012; margin requirements November 8, 2012)
12/1/2010	Reporting, Recordkeeping, Public Information and Information Sharing Requirements for DCOs	731	Core Principle J (Reporting), K (Recordkeeping), L (Public Information) and M (Information-Sharing) are covered by this rulemaking. This rulemaking codifies the language of each core principle and, as appropriate, includes additional implementing provisions.	3038-AC98	2/14/2011
12/1/2010	Reporting, Recordkeeping, and Daily Trading Records Requirements for Swap Dealers and Major Swap Participants	731	The Dodd-Frank Act establishes reporting, recordkeeping, and daily trading records requirements for swap dealers and major swap participants and requires the CFTC to adopt rules prescribing the records to be maintained by swap dealers and major swap participants and the required reporting by such entities. The goal of the proposed rulemaking is to set forth the records to be maintained by swap dealers and major swap participants and required reporting by such entities.	3038-AC96	2/7/2011
2/23/2012				Final Rule	Final rules effective 6/4/2012; compliance dates vary
12/1/2010	Further Defining "Swap Dealer", "Major Swap Participant", and "Eligible Contract Participant"	712 and 721	This rulemaking defines the terms "swap dealer" and "major swap participant." These terms were added to the Commodity Exchange Act (CEA) by Section 721 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act). Section 712(d)(1) of the Dodd-Frank Act requires the Commission and the SEC, in consultation with the Federal Reserve Board, to jointly further define those terms. In addition, the proposed rulemaking, as authorized by Section 712(d)(1), includes minor changes to the term "eligible contract participant" which is currently defined in Section 1a of the CEA.	3235-AK65	2/22/2011
4/18/2012				Final Rule and Interim Final	Final rules effective 7/23/2012 (comments on interim final rule due same day); compliance dates vary
7/5/2012				Correction	
12/6/2010	Study on the Feasibility of Requiring the Adoption of Standardized Computer-Readable Descriptions of Complex and Standardized Derivatives	719	The CFTC has a request for comment that is expected to assist in the preparation of a study on the feasibility of requiring the derivatives industry to adopt standardized computer-readable algorithmic descriptions that may be used to describe complex and standardized derivatives and calculate net exposures. These algorithmic descriptions are intended to facilitate computerized analysis of individual derivative contracts and to calculate net exposures to complex derivatives.	Study	12/31/2010
12/9/2010	Business Conduct Standards for Swap Dealers and Major Swap Participants Dealing with Counterparties	731	The proposed rules implement the Dodd-Frank Act's external business conduct requirements for swap dealers ("SDs") and major swap participants ("MSPs") in their dealings with counterparties, including "Special Entities."	3038-AD25	2/22/2011
1/11/2012				Final Rule	Effective 4/17/2012; Compliance dates vary

12/9/2010	End-User Exception to Mandatory Clearing of Swaps	723	The goal of this rulemaking is to provide an easy-to-use process for end users who want to use the exception to mandatory clearing of swaps under the Dodd-Frank Act.	3038-AD10	2/22/2011
7/19/2012				Final Rule	Effective 9/17/2012
12/9/2010	Governance Requirements for DCOs, DCMs and SEFs, & Additional Requirements Regarding the Mitigation of Conflict of Interest	725(c), 735(b), and 733	The notice of rulemaking proposes certain substantive requirements on the resolution of conflicts of interest, in order to further implement core principles applicable to derivatives clearing organizations ("DCOs"), designated contract markets ("DCMs"), and swap execution facilities ("SEFs") pursuant to Title VII of the Dodd-Frank Wall Street Reform and Consumer Protection Act ("Dodd-Frank Act"). The proposed rules complement those voted on by the Commission on October 1, 2010. In addition, the Commission is proposing rules to implement the core principles concerning governance fitness standards and the composition of governing bodies for DCMs and DCOs, and the core principle on diversity of Boards of Directors for publicly-traded DCMs.	3038-AD01	3/7/2011
12/17/2010	Reporting of Certain Post-Enactment Swap Transactions	723	This interim final rule clarifies the reporting obligations of market participants with respect to swaps entered into on or after the date of enactment of the Dodd-Frank Act and prior to the effective date of swap data reporting rules implementing Section 2(h)(5)(B) of the Commodity Exchange Act, as amended ("transition swaps"). The rule does not impose a present reporting requirement, but rather is intended to advise potential counterparties that (1) reporting requirements applicable to transition swaps will be adopted by the Commission in a separate rulemaking pursuant to Section 2(h)(5)(B) of the Act; and (2) implicit in a reporting requirement is the obligation to preserve certain data pending implementation of the provisions of Section 2(h)(5)(B). The rule is codified in CFTC Regulation 44.03.	3038-AD29	1/18/2011
12/16/2010	Confirmation, Portfolio Reconciliation and Portfolio Compression Requirements for Swap Dealers and Major Swap Participants	731	The Dodd-Frank Act authorizes the CFTC to adopt regulations setting forth standards for the timely and accurate confirmation, processing, netting, documentation, and valuation of swaps. The goal of the proposed rulemaking is to establish standards for swap confirmation as well as standards for portfolio reconciliation and portfolio compression, two post-trade processing procedures that effectuate the timely and accurate netting and valuation of swaps.	3038-AC96	2/28/2011
9/11/2012				Final Rule	Effective 11/13/2012
12/16/2010	Risk Management Requirements for DCOs	725(c)	The Commission is proposing rules that would: (a) adopt a required application form for entities seeking to register as a derivatives clearing organization (DCO); (b) establish the regulatory standards for compliance with DCO Core Principles C (participant and product eligibility), D (risk management), E (settlement procedures), F (treatment of funds), G (default rules and procedures) and I (system safeguards); (c) implement heightened system safeguard standards and special enforcement authority with respect to DCOs that are designated by the Financial Stability Oversight Council as systemically important DCOs (SIDCOs); and (d) supplement the DCO reporting requirements proposed in a previous rulemaking.	3038-AC98	3/21/2011
3/24/2011				3038-AC98 (Correction)	4/25/2011
12/16/2010	Core Principles and Other Requirements for SEFs	721 and 733	Under Title VII of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, Congress amended the Commodity Exchange Act (CEA) to add a definition for swap execution facilities (SEFs), creating markets for the execution of swaps on trading systems or platforms that enable eligible contract participants to trade on a multilateral basis.	3038-AD18	3/7/2011
1/13/2011	Position Limits for Derivatives	737	The notice of rulemaking proposes to establish limits on positions in physical commodity futures contracts as well as swaps that are economically equivalent to those contracts, as mandated by the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, and establish position limits and related standards for registered-entity set. The proposed position limits framework would enable the Commission to meet its statutory responsibility for setting limits in order to combat excessive speculation and manipulation while ensuring sufficient market liquidity and efficient price discovery.	3038-AD15; 3038-AD16	3/28/2011
10/18/2011				Final Rule	Generally effective 1/17/12; comments on interim final rule due 1/17/12
1/13/2011	Swap Trading Relationship Documentation Requirements for Swap Dealers and Major Swap Participants; Orderly Liquidation Termination Provision in Swap Trading Relationship Documentation for Swap Dealers and Major Swap Participants	731	The Dodd-Frank Act authorizes the CFTC to adopt regulations setting forth standards for the timely and accurate confirmation, processing, netting, documentation, and valuation of swaps. The goal of the proposed rulemaking is to establish standards for accurate swap trading relationship documentation as well as standards for documenting the use of the end-user clearing exception.	3038-AC96 (76 FR 6715) 3038-AC96 (76 FR 6708)	4/11/2011
1/20/2011	Commodity Options and Agricultural Swaps	721, 723, and 733	The notice of proposed rulemaking proposes substantial revisions to Parts 32 and 35 of the Commission's regulations and minor revisions to Part 33. The proposed revisions provide that (1) swaps in an agricultural commodity and (2) commodity options (other than options on a future, which will remain subject to Part 33) are permitted to transact subject to the same provisions of the Commodity Exchange Act (CEA), and any rule, regulation, or order thereunder applicable to all other swaps.	3038-AD21	4/4/2011
8/4/2011				Final Rule	Effective 12/31/2011
2/24/2011	Amendments to Commodity Pool Operator and Commodity Trading Operator Advisor Regulations Resulting From the Dodd-Frank Act	721	The rules seek to ensure that Part 4 of the Commission's regulations, which governs the operations and activities of commodity pool operators (CPOs) and commodity trading advisors (CTAs), conforms to changes made to the Commodity Exchange Act (CEA) made by the Dodd-Frank Act.	3038-AD49	5/2/2011
9/5/2012				Final Rule	Effective 11/5/2012
2/24/2011	Requirements for Processing, Clearing, and Transfer of Customer Positions	731	Through this rulemaking, the Commission seeks to expand access to, and to strengthen the financial integrity of, the swap markets subject to Commission oversight by requiring and establishing uniform standards for prompt processing, submission, and acceptance of swaps eligible for clearing by a derivatives clearing organization (DCO). The Commission also seeks to facilitate a DCO's prompt transfer of customer positions from a carrying clearing member to another clearing member with the goal of avoiding unnecessary delay and market disruption.	3038-AC98	4/11/2011
3/20/2012				Final Rule	Effective 10/1/2012

CFTC Rulemakings Under Title VII of Dodd-Frank

As of 26 September, 2012

DATE ISSUED	ITEM	SECTION OF TITLE VII	GOAL OF PROPOSED RULEMAKING*	RIN (LINKS TO NOTICE)	DATE DUE
2/24/2011	Registration of Intermediaries	731	Through this rulemaking, the Commission seeks to make certain substantive and technical revisions to Part 3 of the Commission's regulations regarding the registration of intermediaries. The proposed revisions would provide that registration requirements applicable to intermediaries engaged in certain commodity interest transactions, i.e., futures, commodity option and retail foreign exchange extend to intermediaries engaged in swaps transactions.	3038-AD50	5/9/2011
8/28/2012				Final Rule	Effective 10/29/2012
2/24/2011	Proposed Interpretive Order on Disruptive Trade Practices	747	The Proposed Interpretive Order is intended to provide guidance on the types of trading, practices, and conduct that constitute violations of the three statutory disruptive practices set forth in section 4c(a)(5) of the Commodity Exchange Act (CEA) as amended by Dodd-Frank Act section 747.	3038-AD26	5/17/2011
4/12/2011	Proposed Rules Regarding Margin for Uncleared Swaps	731	The proposed rules would address margin requirements for uncleared swaps entered into by swap dealers (SDs) or major swap participants (MSPs). The rules would apply to SD and MSPs that are not subject to regulation by the Federal Reserve Board, the Office of the Comptroller of the Currency, the Federal Deposit Insurance Corporation, the Farm Credit Administration or the Federal Housing Finance Agency (collectively the prudential regulators). The CFTC consulted with the prudential regulators as well as with the Securities and Exchange Commission in developing the proposed rules. The CFTC and the prudential regulators have attempted to make their respective proposals comparable to the maximum extent practicable. In light of the release of the BIS-IOSCO Consultative Release on Margin Requirements for Non-Centrally Cleared Derivatives, the CFTC has re-opened the comment period for its proposal on proposed rules.	3038-AC97	7/11/2011
7/12/2012				3038-AC97 (Re-Opened Comment Period)	9/14/2012
4/12/2011	Swap Data Recordkeeping and Reporting Requirements: Pre-Enactment and Transition Swaps	723	The goal of the rule for historical swaps is to provide specificity and clarity, to the extent possible, concerning what records must be kept and what data must be reported with respect to historical swaps. The rule is also designed to ensure that data needed by regulators concerning historical swaps is available to regulators through swap data repositories (SDRs) beginning on the effective date.	3038-AD48	6/9/2011
				Final Rule	Effective 8/13/2012
4/27/2011	Proposed Rules Regarding Capital Requirements for Swap Dealers and Major Swap Participants	731	The proposed rules address the SD's or MSP's qualifying capital and the minimum levels of such qualifying capital that the SD or MSP would be required to maintain. The proposed requirements would be included as amendments to existing Commission regulations governing FCM capital requirements, and also as new capital rules that would apply to SDs and MSPs that are not FCMs. The proposed rules also address when internal models may be used for purposes of the required capital calculations.	3038 - AD54	7/11/2011
4/27/2011	Proposed Rulemaking on Amendments to Adapt Certain CFTC Regulations to the Dodd-Frank Act	721	Section 721 of the Dodd-Frank Act amended the definitions of futures commission merchant and introducing broker in section 1a of the Commodity Exchange Act to permit these intermediaries to trade swaps on behalf of customers. Section 733 of the Dodd-Frank Act amended section 5 of the Commodity Exchange Act by introducing swap execution facilities as trading platforms for swaps. In this proposed rulemaking, the Commission revised several of its regulations to reflect these and other revisions to the Commodity Exchange Act.	3038-AD53	8/8/2011
4/27/2011	Rule on Further Definition of "Swap," "Security-Based Swap," and "Security-Based Swap Agreement"; "Mixed Swaps"; and Books and Records for "Security-Based Swap Agreements"	721	The goal of the rulemaking is to: i) further define certain terms; ii) provide for the regulation of mixed swaps; and iii) adopt specified books and records rules. The notice of proposed rulemaking includes proposed rules and interpretive guidance regarding the terms "swap," "security-based swap," and "security-based swap agreement," which the Dodd-Frank Act requires the Commission and the SEC, in consultation with the Federal Reserve Board, to jointly further define. In addition, the statute provides that the Commissions shall jointly prescribe regulations regarding "mixed swaps" as are necessary to carry out the purposes of Title VII of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act), and to jointly adopt rules governing books and records requirements for "security-based swap agreements."	3038-AD46	7/22/2011
				Correction	
8/13/2012				Final Rule	Effective 10/12/2012; Compliance dates vary; comments on interpretation due by 10/12/2012
4/27/2011	Proposed Rule on the Protection of Cleared Swaps Customer Contracts and Collateral and Conforming Amendments to the Commodity Broker Bankruptcy Provisions	724	The goal of the proposed rules is to implement Section 724 of the Dodd-Frank Act, which prescribes the manner that cleared swaps (and related collateral) must be treated prior to and after bankruptcy. Section 724(a) amends the CEA by inserting a new section 4d(f), which imposes requirements on FCMs and depositories (including DCOs).	3038-AC99	8/8/2011
				Correction	
1/11/2012				Final Rule	Effective 4/9/2012; Compliance dates vary
6/14/2011	Proposed Order to Address Effective Date for Swap Regulation	754	Title VII of the Dodd-Frank Act establishes a comprehensive new regulatory framework for swaps. Section 754 of the Dodd-Frank Act provides that certain provisions are self-effectuating on July 16, 2011 (the general effective date set forth in Title VII), while others become effective upon the adoption of an implementing regulation by the Commission. The Commission's rulemakings to implement the Dodd-Frank Act will not be completed by July 16, 2011. Accordingly, this proposed Order is necessary to facilitate an appropriate transition to the new swap regulatory regime. Such an orderly transition will promote market efficiency, and will provide clarity to participants in the swaps market that is in the interest of the markets and the public. The Commission's rulemakings to implement the Dodd-Frank Act will not be completed by July 16, 2012. Accordingly, this proposed Order is necessary to facilitate an appropriate transition to the new swap regulatory regime. Such an orderly transition will promote market efficiency, and will provide clarity to participants in the swaps market that is in the interest of the markets and the public.	Proposed Order	7/1/2011
10/18/2011				Proposed Amendment	11/25/2011
				Final Order	Exemptive relief extended; effective date for swap regulation pushed back to 7/16/2012
12/29/2011				No-Action Relief	
5/16/2012				Proposed Amendment	Exemptive relief extended; effective date for swap regulation pushed back to 12/31/2012
7/13/2012	Final Amendment				

CFTC Rulemakings Under Title VII of Dodd-Frank
As of 26 September, 2012

DATE ISSUED	ITEM	SECTION OF TITLE VII	GOAL OF PROPOSED RULEMAKING*	RIN (LINKS TO NOTICE)	DATE DUE
7/19/2011	Customer Clearing Documentation and Timing of Acceptance for Clearing	723	The goal of the rulemaking is to facilitate customer access to clearing and minimize the time between submission and acceptance or rejection of trades for clearing by DCOs and clearing members.	3038-AD51	9/30/2011
3/20/2012				Correction	
6/25/2012				Final Rule	
7/19/2011	Proposed Rule on Clearing Member Risk Management	725 and 731	The goal of the proposed rulemaking is to facilitate customer access to clearing and to bolster risk management at the clearing member level.	3038-AD51	9/30/2011
3/20/2012				Final Rule	
6/25/2012				Correction	
9/8/2011	Compliance and Implementation Schedule for Clearing and Execution	723(a)	The CFTC rulemaking would establish a schedule to phase in compliance with certain new statutory provisions enacted under Title VII of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act). These provisions include the clearing requirement under new Section 2(h)(1)(A) of the Commodity Exchange Act (CEA or Act), and the trade execution requirement under new Section 2(h)(8)(A) of the CEA.	3038-AD60	11/4/2011
7/30/2012				Final Rule	
9/8/2011	Proposed Rule on Compliance and Implementation Schedule for Documentation and Margining	731	The CFTC is proposing regulations that would establish a schedule to phase in compliance with previously proposed requirements, including the swap trading relationship documentation requirement, and the margin requirements for uncleared swaps.	3038-AC96 ; 3038-AC97	11/4/2011
12/2/2011	Proposed Interpretation Concerning Dodd-Frank Anti-Fraud Authority	742(a)	The CFTC issued a proposed interpretation regarding anti-fraud authority provided in Dodd-Frank, providing its view on the meaning of the term "actual delivery", and guidance on how the Commission will determine whether the actual delivery exemption applies to the transaction.	3038-AD64	Effective 12/14/2011; comments due 2/13/2012
12/5/2011	Proposed Rule on the Process for Making a Swap Available to Trade under Section 2(h)(8) of the CEA	723	The CFTC is proposing regulations that would establish a process for DCMs and SEFs to make a swap available to trade under Section 2(h)(8) of the Commodity Exchange Act, pursuant to Section 723 of Dodd-Frank.	3038-AD18	2/13/2012
2/23/2012	Procedures to Establish Appropriate Minimum Block Sizes for Large Notional Off-Facility Swaps and Block Trades	727	The CFTC is further proposing rules to group swaps into separate swap categories, establish methodologies for setting appropriate minimum block sizes for block trades and large notional off-facility swaps, and prevent disclosure of identities of swap counterparties in connection with real-time public reporting of swap data.	3038-AD08	5/14/2012
5/30/2012	Aggregation, Position Limits for Futures and Swaps	737	The CFTC is issuing a notice of proposed rulemaking offering certain modifications to the Commission's policy for aggregation under the position limits regime in Commission regulation.	3038-AD82	6/29/2012
6/15/2012	Dual and Multiple Associations of Persons Associated with Swap Dealers, Major Swap Participants and Other Commission registrants	716(c) and 731	The CFTC is proposing regulations that would make clear that each swap dealer, MSP, and other Commission registrant with whom an associated person (AP) is associated is required to supervise the AP and is jointly and severally responsible for the activities of the AP with respect to customers common to it and any other SD, MSP or other Commission registrant.	3038-AD66	8/14/2012
6/20/2012	Rules Prohibiting the Aggregation of Orders to Satisfy Minimum Block Sizes or Cap Size Requirements, and Establishing Eligibility Requirements for Parties to Block Trades	727	The Commodity Futures Trading Commission ("Commission") is issuing a notice of proposed rulemaking to add certain provisions to part 43 of the Commission's regulations relating to block trades in swap contracts.	3038-AD84	7/27/2012
7/12/2012	Proposed Exemptive Order Regarding Compliance with Certain Swap Regulations	722	The CFTC proposes to grant temporary exemptive relief in order to allow non-U.S. swap dealers and non-U.S. MSPs to delay compliance with certain entity level requirements of the CEA, subject to certain conditions. Additionally, with respect to transaction level requirements of the CEA, the relief would allow non-U.S. swap dealers and non-U.S. MSPs, as well as foreign branches of U.S. swap dealers and MSPs, to comply only with those requirements as may be required in the home jurisdiction of such non-U.S. swap dealers and non-U.S. MSPs (or in the case of foreign branches of U.S. swap dealers or MSPs, the foreign location of the branch).	3038-AD85	8/13/2012
7/12/2012	Proposed Interpretive Guidance on the Cross-Border Application of Certain Swaps Provisions of the CEA	722	The CFTC published for public comment the proposed interpretive guidance and policy statement regarding the cross-border application of the swaps provisions of the CEA enacted by Title VII of the Dodd-Frank Act (and CFTC regulations promulgated thereunder).	3038-AD57	8/27/2012
7/17/2012	Proposed Rule on Clearing Exemption Entered into by Certain Swap Cooperatives	723	The proposed rule allows cooperatives meeting certain conditions to elect not to submit for clearing certain swaps that such cooperatives would otherwise be required to clear in accordance with Section 2(h)(1) of the CEA.	3038-AD47	8/16/2012

CFTC Rulemakings Under Title VII of *Dodd-Frank*
As of 26 September, 2012

DATE ISSUED	ITEM	SECTION OF TITLE VII	GOAL OF PROPOSED RULEMAKING*	RIN (LINKS TO NOTICE)	DATE DUE
8/7/2012	Proposed Rule on Clearing Requirement Determinations under Section 2(h) of the CEA	723	The proposed regulation seeks to establish a clearing requirement under new Section 2(h)(1)(A) of the CEA enacted under Title VII of the Dodd-Frank Act. The regulations would require certain classes of CDS and interest rate swaps to be cleared by DCOs registered with the Commission. The Commission is also proposing regulations to prevent evasion of the clearing requirement and related provisions.	3038-AD86	9/6/2012
8/21/2012	Proposed Rule on Clearing Exemption for Swaps between Certain Affiliated Entities	723	The CFTC is proposing a rule to exempt swaps between certain affiliated entities within a corporate group from the clearing requirement (the "inter-affiliate clearing exemption") under Section 2(h)(1)(A) of the CEA.	3038-AD47	9/20/2012
