BUILDING THE INFRASTRUCTURE FOR THE CIRCULAR ECONOMY IN APEC

THE CIRCULAR ECONOMY

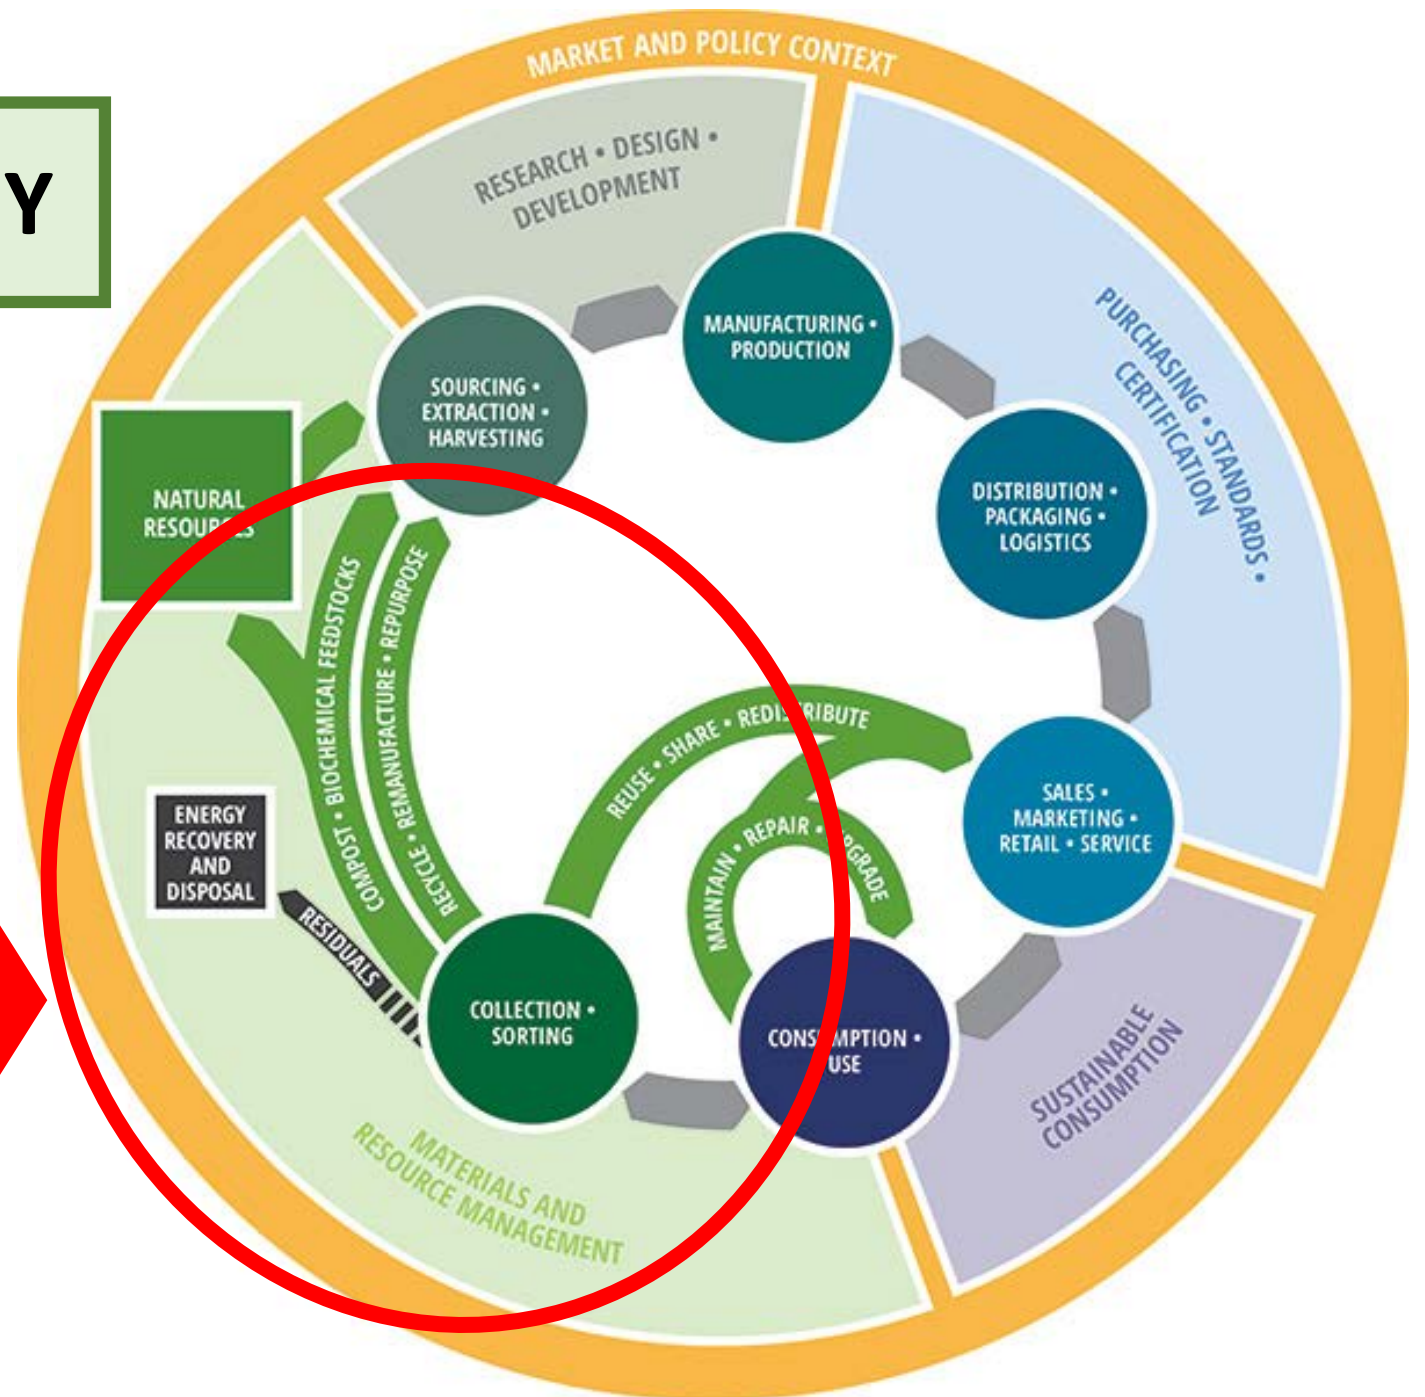

THE CIRCULAR ECONOMY

FOCUS OF INITIATIVE:

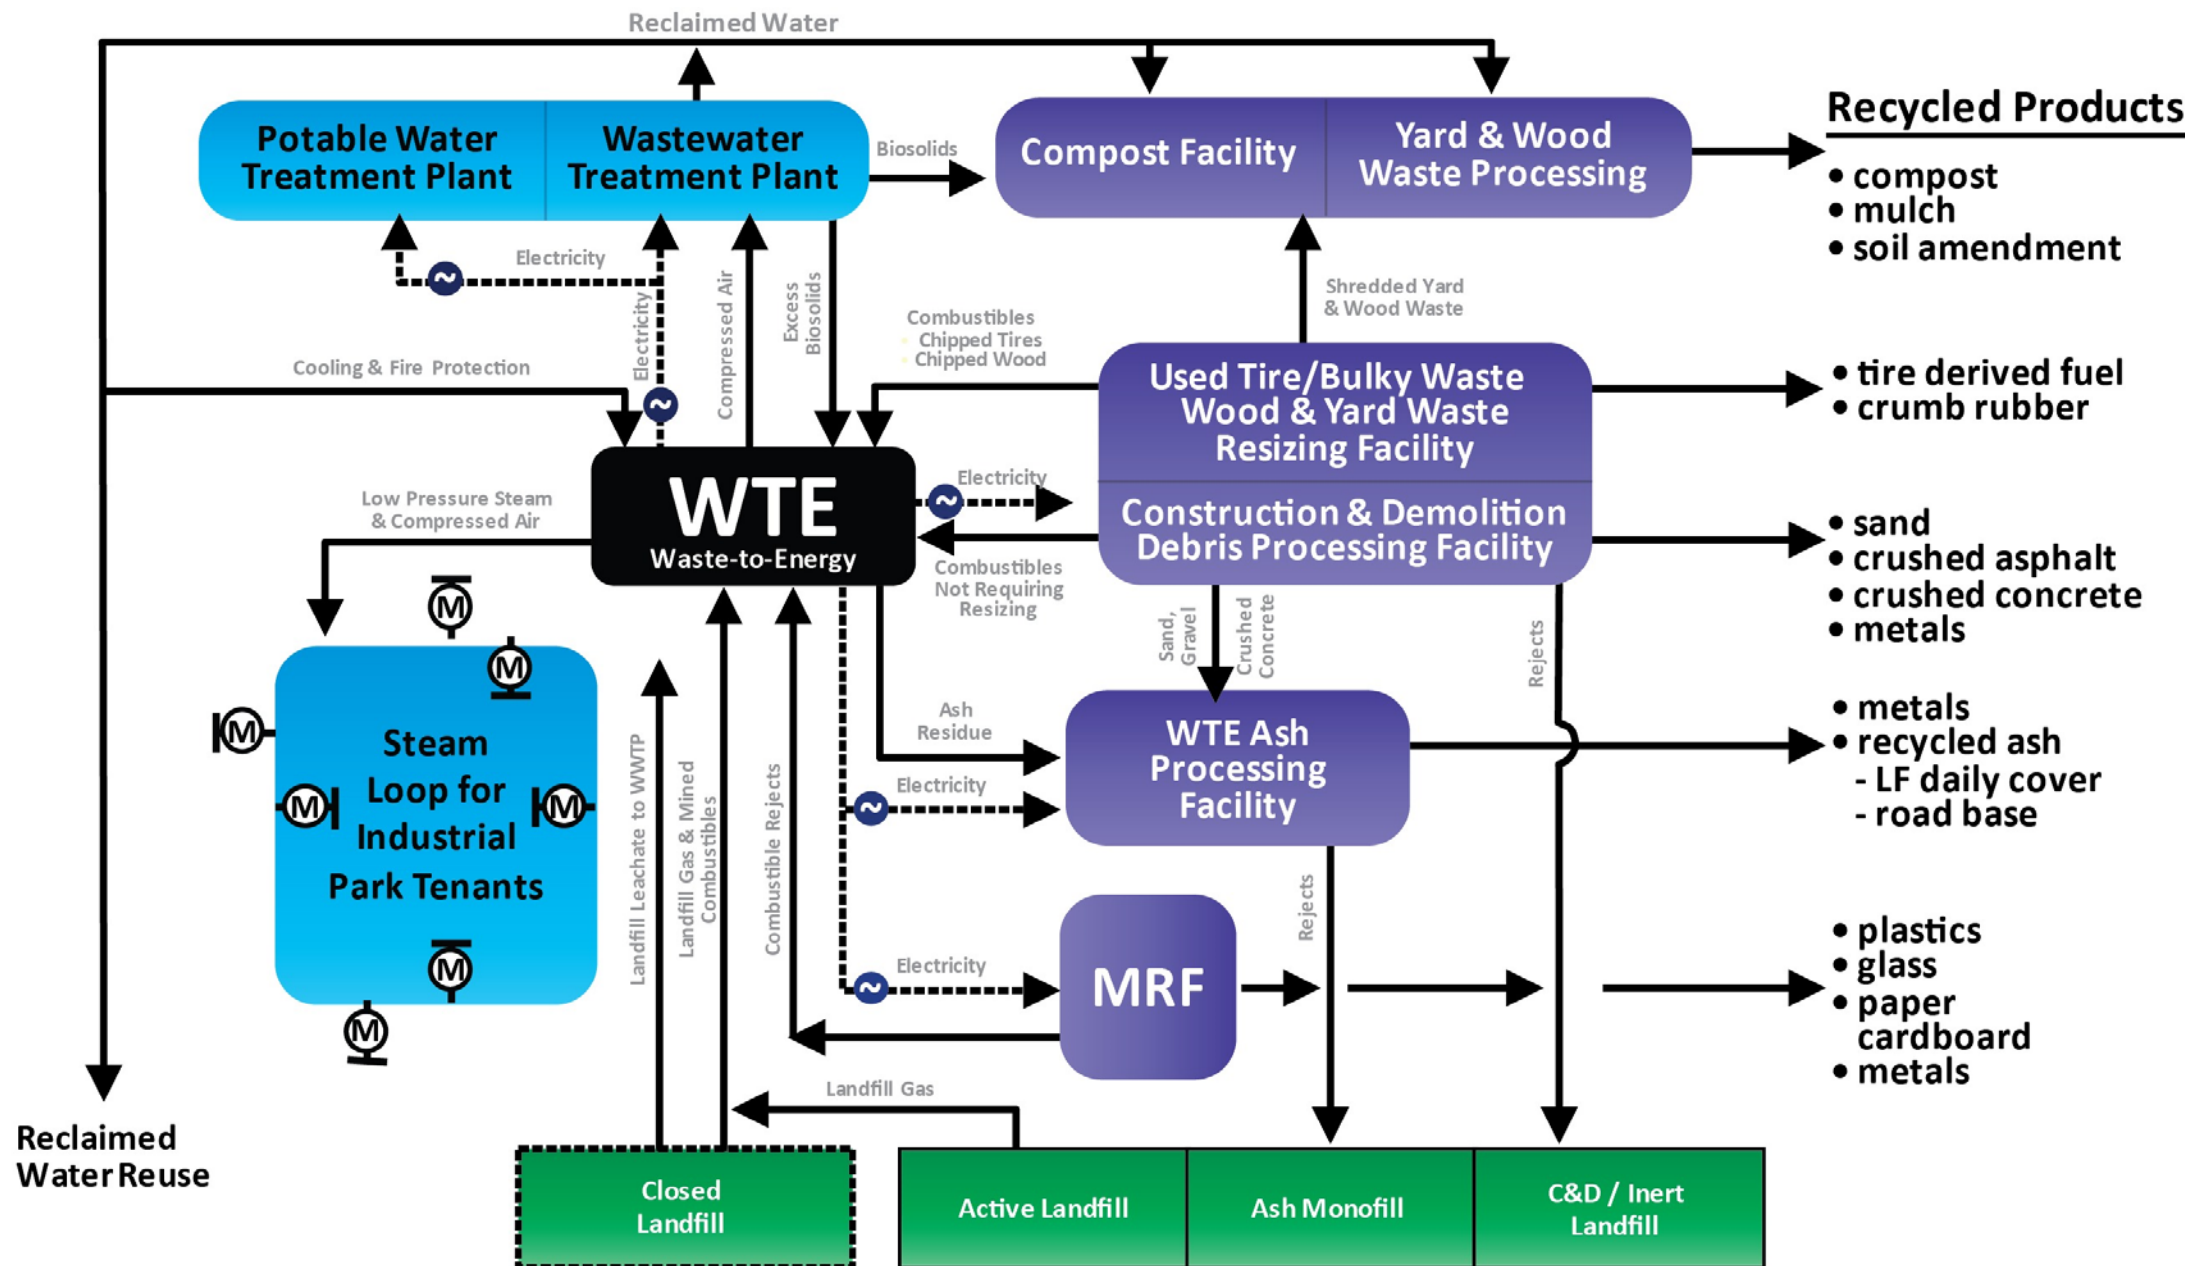

Resource Recovery Management (Waste Management ++)

- Collection
- Sorting
- Recycling/Repurposing/Reuse
- Waste-to-Energy
- Compost/Feedstock
- Disposal

Conference:

Building the Infrastructure for the Circular Economy in APEC

September 2019, Hong Kong China

- Current Gaps and Challenges
- Changing the Narrative: Resource Recovery Management (2RM)
- Financing Infrastructure
 - Attracting long-term and other investors
 - Blended finance
 - Effective risk allocation
- Catalyzing Economy Initiatives: From Idea to Action

Beyond the Conference: From Concepts to Infrastructure Projects

- Selected governments to host APIP/APFF dialogues with key municipal waste management stakeholders in their respective economies
- APIP/APFF and stakeholders to draft strategy for financing PPPs in waste management for the specific economy
- Technical assistance training for implementors by multilateral institutions, export credit agencies and specialized institutions (e.g., GIH)
- PPP projects designed and brought to the market
