

Zeng Yuqun is the Founder, Chairman and CEO of CATL, a global leader of new energy innovative technologies. Since the company's founding in 2011, CATL's mission has been to innovate to power people's lives with green power and efficient energy storage solutions. At CATL, Dr. Zeng and his team remain committed to innovations in material and electrochemistry system, structure, extreme manufacturing and business models.

Dr. Zeng is actively involved in promoting the academic development of the industry. He is currently a Member of the Asian Society for Solid State Ionic Matter and an Academic Member of the Center for Clean Energy of the Institute of Physics, Chinese Academy of Sciences. In 2023, he won the *Outstanding Contribution in Sustainability Award* by the Nobel Sustainability Trust Foundation, and was included in TIME *100 Climate List* for his dedication in shaping and leading climate action
